

General Information

At Mize Farm and Garden, your needs come first. We strive for first class service as well as honest and friendly relationships with our customers. We believe in helping your business grow and excel through our efforts. This family owned business is based with strong morals, and we continue to portray that today.

This catalog is a representation of what Mize Farm & Garden Supply, Inc. carries. Expanded manufacturers catalogs are available upon request. We are happy to offer the full line of the manufactures products. In some cases there maybe minimum order requirements.

OFFICE HOURS:

Office hours are Monday through Friday, 8:00 a.m. until 5:00 p.m. Orders must be placed by 4:00 p.m. on the business day prior to delivery. Order by phone, mail, fax, or through your Mize Representative.

Phone: 1-800-321-8161
Fax Number: (423) 928-8093

TERMS:

Net payment due on the 10th of the month following invoice date. A service charge of 1.5% (18% annual will be added on all invoices not paid within 30 days. *THIS IS A PENALTY FOR LATE PAYMENTS, NOT AN OFFER FOR FINANCING.*

DELIVERY:

All orders delivered by Mize Farm & Garden Supply, Inc. will have a \$25.00 delivery fee. Deliveries must have a \$400.00 minimum. Orders greater than 250 miles charge will be \$30.00

NEW CUSTOMERS:

Unless credit has been established, all orders will be shipped COD. To establish credit, a credit application must be completed and signed by an owner or officer of the company. Customer will be notified upon approval.

SALES TAX:

Sales tax will be charged on all items unless a completed sales tax exemption number form has been filed with us.

WILL CALLS:

Customers who wish to pick up merchandise directly from our warehouse are welcome to do so. Our friendly in-house sales force will assist you in any way possible. To expedite your order, you may call ahead.

RETURNS:

We will make pick ups and exchanges on our normal scheduled delivery days or when we deliver another order.

Returns by any other means are not acceptable without prior approval from Mize.

All claims for shortages and defectives must be reported to Mize within 10 days of delivery. All claims regarding billing errors must be reported within 30 days and prior to the end of the month whenever possible.

When reporting items for return, credit, or adjustment, please have your picking list or invoice handy.

A 15% restocking fee may be charged.

Merchandise found to be defective will be picked up (or field destroyed by Mize Representative) and full credit will be issued provided the merchandise does not appear to have been abused or misused or is in accordance with the manufacturer's warranty policy.

NON-DEFECTIVES:

Merchandise incorrectly shipped by our warehouse will be exchanged as soon as possible for the correct merchandise, or picked up and credited. If the customer keeps the merchandise, any price adjustments made will be at regular prices. Merchandise that is drop-shipped from the manufacturer will have to be returned to the originating place of shipment. In these cases, we ask for your patience in scheduling transportation to return the merchandise.

IMPORTANT NOTICE TO PURCHASER:

The following is made in lieu of all warranties, expressed or implied. Seller's and manufacturer's only obligation shall be to replace such quantity of the product proven to be defective. Neither seller or manufacturer shall be liable for any injury, loss, or damage, direct or consequential, arising out of the use of, or the inability to use the product. Before using, user shall determine suitability of the product for his intended use, and user assumes all risk and liability whatsoever in connection therewith. The foregoing may not be changed except by an agreement signed by officers of seller and manufacturer.

LIMITATION OF SELLER'S LIABILITY:

Seller's liability (and buyer's exclusive remedy) shall be limited to replacement or repair, at seller's option, of any defective goods or any part thereof or performance of any services. In no event shall seller be liable for special incidental or consequential damages in the nature of penalties. If the other remedies provided hereunder fail of the essential purpose, buyer's sole and exclusive remedy shall be, upon return of goods, the refund of whatever portion of the purchase price has been paid. Buyer shall pay all transportation charges to return goods to seller for repair, replacement, or, if required, return of the purchase price. Seller shall make no allowance for repair or alterations made by buyer, unless made with seller's prior written consent.

ORDERING FROM MIZE:

Mize stocks many of the sizes from all National Brands and products found in this catalog. **If you do not see the national brand, product or size that you need, it may be available on a custom basis.** Custom orders need to be placed as early as possible to ensure timely delivery for your customers. **Call 800-321-8161 to place your custom order and we will have it for you!**

Thanks again,
MIZE FARM & GARDEN SUPPLY, INC

4 EQUIPMENT

✕ Economy Benches

Atlas' bench systems are designed to cut labor, increase greenhouse efficiency and last through years of heavy loading usage. Designed as an alternative to the high cost of galvanized expanded metal bench tops. In addition, our customers have requested a "flush," flat edge bench that allows flats and trays to overhang an inch or two, thus accommodating any odd sized tray or arrangement. Supporting framework for all benches is 1" x 2" rectangular tubing, offering superior strength and longevity.

Key Features:

1" x 2" rectangular legs

1" x 2" rectangular top lathing

Heavy aluminum extrusions on top edge and underneath beam

1" x 2" welded wire

✕ Portable Benches

Atlas' bench systems are designed to cut labor, increase greenhouse efficiency and last through years of heavy loading usage. Benches are available in various lengths and widths and can be easily moved about inside the greenhouse by two people. Supporting framework for all benches is 1" x 2" rectangular tubing, offering superior strength and longevity.

Key Features:

1" x 2" rectangular legs

1" x 2" rectangle top lathing

Heavy aluminum extrusions on top edge & underneath beam

13 gauge galvanized expanded metal bench top

✕ Continuous Benches

Atlas' bench systems are designed to cut labor, increase greenhouse efficiency and last through years of heavy loading usage. Continuous benches are permanently fastened together above ground creating a continuous bench to whatever length you desire. Supporting framework for all benches is 1" x 2" rectangular tubing offering superior strength & longevity.

Key Features:

1" x 2" rectangular legs

1" x 2" rectangular top lathing

Heavy aluminum extrusions on top edge and underneath beam

13 gauge galvanized expanded metal bench top

✕ Rolling Benches

Atlas' bench systems are designed to cut labor, increase greenhouse efficiency and last through years of heavy loading usage. Our rolling benches are designed for in-ground installation and used to save space in high production applications. Supporting framework for all benches is 1" x 2" rectangular tubing, offering superior strength & longevity.

Key Features:

1" x 2" Rectangular legs

1" x 2" Rectangular top lathing

Heavy aluminum extrusions on top edge and underneath beam

13 gauge galvanized expanded metal bench top

GreenGro™ Greenhouse Heaters

**99%
Efficient**

GreenGro™ Heaters

The only heaters certified specifically for greenhouse heating, L.B. White GreenGro heaters deliver safe, clean heat for up to 20% less fuel than traditional vented heaters.

All GreenGro and GreenGro Plus heaters include:

- 120,000 and 220,000 Btu/h models
- Advanced clean burning design
- Dependable, efficient spark ignition
- Quick response on demand heat
- Powerful, long reaching blower fan
- Propane or natural gas
- Indoor or outdoor installation

In addition, GreenGro Plus models offer:

- Two Stage temperature control
- Heating and air circulation modes
- Exclusive Tri-Shield triple coated case finish

**Finally, there's a
better heating solution
for greenhouses**

COOLAIR® Type NBF Fans

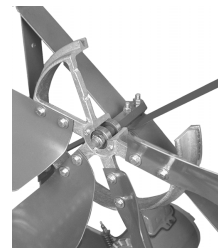

EXCLUSIVE DRIVE ASSEMBLY

Our engineers have developed an innovative drive assembly for the Type NBF fan. Our use of quality materials and precise engineering techniques in constructing wheel assemblies assure you of years of quiet, trouble-free service. Power is applied through V-belts directly to the propeller with blade load concentrated directly over the bearings to eliminate overhung bearing load. This exclusive, time tested design has been widely acclaimed by engineers.

PERFORMANCE AND EFFICIENCY

Coolair's engineers have designed the most successful combination of Blade and flared orifice resulting in efficient operation. When economy is measured in terms of cubic feet of air per minute per dollar invested, the Type NBF wall exhaust fan is unsurpassed. American Coolair's Type NBF fan is today's best investment. Coolair uses only the most efficient totally enclosed ball bearing motors available. They are totally enclosed resilient base motors.

TYPE LRW SHUTTER (All Aluminum)

The LRW Shutter is an all aluminum damper featuring an extruded aluminum frame with interlocking aluminum blades for maximum weather seal. Double panel shutters (LRW45 and larger) are constructed with a rigid 'T' section center member to prevent shutter blades from sticking. The LRW Shutter has nylon bearings on all movable linkage. A sturdy, extruded aluminum tie-bar is connected exactly on the blade centers. Double panel shutters feature dual tie-bars (one for each panel). The LRW Shutter can be gravity or motor operated.

6 ACCESSORIES

BATTEN TAPE • 3/4" x 500'

Batten Tape provides a quick fastening method for stapling plastic film to wood framing. It saves hours of application and removal time while acting as a batten strip to hold plastic in place during cold and in wind. Just staple every 4" while holding tape tight. The tape is a white vinyl strip 3/4" wide by 1/32" thick. It is formulated to resist U.V. radiation and extreme cold.

KOOL RAY ULTRA - LIQUID SHADE • 1 GALLON • 5 GALLON

KOOL TO YOUR BUDGET

KOOL RAY ULTRA is so concentrated that it can be diluted with water at almost twice the amount than most regular shade paints! 1 gallon of ULTRA is equal to almost 2 gallons of our regular Kool Ray and with SAVINGS up to 30% and more!

KOOL TO YOUR CROPS

ULTRA is designed with a higher percentage of UV resistant and heat-reducing titanium dioxide pigments for cooler greenhouse temperatures during the warmer spring and summer growing season.

KOOL TO YOUR BUSINESS

ULTRA concentrated for SUPER SAVINGS!

ULTRA WHITE & RIGHT for better heat reduction

ULTRA safe for a clean environment

ULTRA easy to mix and apply

WIND STRAPPING • 1 3/4" x 300'

Strapping works like a girdle or belt to tighten your film up, make it snug and take slack out. Made of durable polypropylene. Protect your greenhouse against wind damage. Save time by eliminating tedious repairs.

CONVECTION TUBING

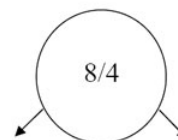

Ken-Bar's poly convection tubing is available in either 4 or 6-mil plastic. The clear polyethylene is protected with a strong ultraviolet inhibitor. The plastic is formulated for maximum light penetration and for durability in a greenhouse environment. Each tube is guaranteed to support the cubic feet / minute output of the fan for which it is designed. If there is a problem, the tubing will be replaced immediately. The 4-mil tubing is guaranteed for 1 year and the 6-mil for 3 years.

Ken-Bar provides the proper hole diameter and spacing to conform to fan manufacturers' specifications. A properly designed tube will make full use of the fan's output by distributing air evenly down the length of the greenhouse. If we know the length of the house and the diameter of the fan, we can custom design the tube. Punch position can be varied as shown below to provide the best possible air flow for each situation.

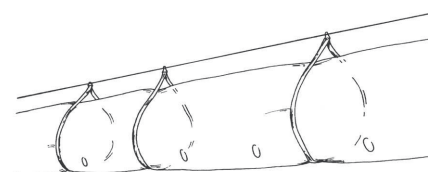

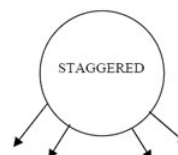

Convection Tubing is available in diameters of 12", 18", 20", 24", 30", and 4-mil. rolls up to 1500' long and 6-mil. rolls up to 1000' long.

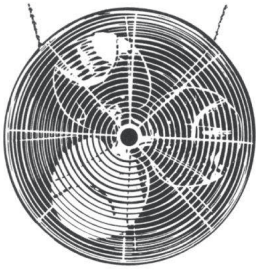

**NORMAL
USED UNLESS

**FOR MULTI
DIRECTIONAL
AIR FLOW**

HAF Fans

- Each high efficiency fan uses the energy of one 100 Watt light bulb to move 2,000 CFM (20 CFM per Watt).
- Totally enclosed, ultra high efficiency motor with built-in thermal protection and self-aligning sleeve bearings
- Stamped aluminum blade with vinyl-coated, OSHA blade guard. Galvanized guards available.
- 1/15 HP, 100W motor (115V or 220V) 2000CFM, 1400 RPM, totally enclosed, permanent split capacitor.

POLY PATCH - Aggressive Adhesive

Poly Patch has always been the leading film repair tape in America. ***Now it's even better!*** Poly Patch bonds 5 times more aggressively to polyethylene film than before.

SIZES: 2" x 48'
4" x 48'
6" x 48'
10" x 24'

WIGGLE WIRE LOCK • Base & Wire • 8ft. Length

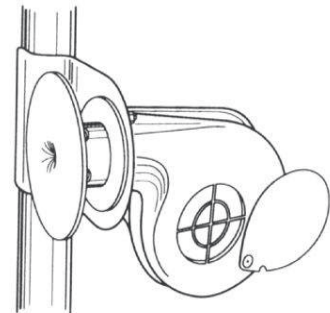

Used on thousands of greenhouses, Wiggle Wire has proven to be a low-cost, effective way to attach polyethylene or shade material to greenhouses. Versatile wire lock will fasten up to 4 layers of poly.

INFLATION BLOWER AIR DEFLECTOR & BRACKET

Centrifugal blower maintains air space film layers.

Four port air deflector reduces film deterioration by directing air away from the poly layer. White cap reduces degradation and eliminates air flow restrictions.

8 PLANT PROTECTION

✗ KNITTED SHADE CLOTH

DeWitt's Knitted Shade is made from 100% UV stabilized polyethylene. Its unique lock stitch construction allows you the ability to cut the fabric with scissors without further unraveling. Knitted Shade is available in a variety of colors, stripes & shade densities.

✗ WOVEN SHADE CLOTH

DeWitt's Knitted Shade is made from 100% polypropylene monofilament strands. It is UV stabilized to hold up under the most extreme solar conditions.

WOVEN & KNITTED SHADE CLOTH SPECS:

Percent Shades available

Black = 30% - 90% Green = 60%

Standard Sizes available

Width = 6', 8', 10', 12', 20', 26' and 32'

Length = Pull & Cut

UV Stabilized to last even in direct sunlight!

- 15' x 100'

GREENHOUSE FILMS

K1 OVERWINTER FILMS - OVER WINTER

Although Klerks is recognized as the leader in long life additive film technology, did you know that we also pioneered many advances for the nursery film user as well? RKW Klerks was the first company to use tri-layer technology for one year and overwinter films. We start with top quality resins that produce great tensile strength, but we don't just stop there. We offer a variety of choices for overwinter film users. Film is available in 3, 4, 5, and 6 mil. Clear film as well as white opacities of 35%, 55%, and 70% are also available. Widths from 4' up to 60' are available.

K50 LONG-LIFE FILMS - 4 YEARS

K50 CLEAR - 4 Years

A 4 year, 6 mil covering for single or double layer applications. Starting with strong EVA resin for excellent durability and light transmission, it comes standard with an anti-static additive to repel dust and dirt and keep the light shining through. Klerk's UV protection uses the latest HALs technology for superior film life. Tri-layer construction gives maximum physical properties with less weight. Available in Clear or 55% White, sheet or tubes.

K50 IR/AC

Keep the heat and lose the drips! Klerks sets the standard in the industry for long lasting anti-condensation, the standard to which all other companies compare. All anti-condensates work when they're new, but no other film's anti-condensate additive keeps on working for you after that first or second year like Klerks does.

- Anti-condensation - Removes the condensation from the film surface by providing an industrial soap additive. That keeps the films surface tension low where droplets will not form. Water will spread out and "sheet" to the gutters.
- Infra-Red - This film helps conserve energy by holding longer IR wavelengths in the house at night. This keeps the heaters from cycling as often and saves on energy. Has one of the highest thermal ratings of any film in the industry.
- Diffusion – breaks up the light and spreads it around your greenhouse. Gives your plant even, cool light that can reach below the canopy.

CARRY TRAYS FOR ROUND POTS

**EAST JORDAN
PLASTICS, INC.**

SHUTTLE ® TRAYS & BASKETS

Lots more ways to deliver worry-free shipment and fast store setup. On the shipment side, our sturdy Shuttle Trays and Shuttle Baskets anchor pots securely during transport, as well as on the bench to prevent tipping. Plus, their unique design makes it impossible for soil to fall between the pots. On the setup side, multi-compartment trays and baskets facilitate fast display breakdown and setup, as well as attractive spacing of large-canopied crops. In addition, multiple holes ensure adequate drainage, so plants stay healthy in the store environment.

SHUTTLE® SQUARES

Like Shuttle® Pots, our Shuttle Squares are designed to withstand whatever the grower world dishes out. They have the same strong rims and sturdy shoulders for quick de-nesting and trouble free use in automated systems, a smooth, seamless finish to make plant removal a snap and can be labeled.

SHUTTLE® SQUARES • Colors available in Terra Cotta, Black or call for custom colors.

POT CARRIERS

Available in both round and square styles, our Pot Carriers are a convenient way for both growers and retailers to move crops. Their rigid construction provides secure transport, while their multi-pot design offers a fast and efficient way to move pots around the store.

- Pot Carriers for SS 325's offer many options, including carriers designed for 12, 18, or 20 pots.
- Sturdy and consistent wall thickness adds durability

14 PLUG TRAYS

PLUG TRAYS

Precisely what growers need. Conceived and produced with the cooperation and assistance of leading propagators and automated equipment manufacturers, our plug and propagation trays are precision-engineered to exact tolerances. Whether you need to hand stick rooted cuttings, or sow millions of seeds using the latest automated equipment, we can offer you the levels of consistent precision and repeatable performance you need. Specifically, exact dimension, definition, and drainage, cell to cell, and tray to tray.

SHUTTLE™ Hanging Baskets, Planters, Bowls & Injection Molded Pots

The full featured quality injection molded SHUTTLE™ Basket and SHUTTLE™ Planter lines are all Made in the USA.

Our 10", 11" and 12" Baskets have multiple hanging options; over the rim for automation (10" and 11" only), and double clip and wire hanger holes.

3-Strand Hangers available for the 10" and 11" baskets; 4-Strand Hangers available for the 12" basket.

Tag Slots are integrated in the rims of all Injected Molded items.

Our 10", 12", 13" and 14" Planters have sturdy construction with heavy rims and sidewalls with bottom slots for use with industry standard saucers.

Our 8" (SPI800), 10" (SPI1000) and NEW 8.5" (SPI850DTS) Injection Molded pots have strong rims that accept both hangers and cages. In combination with the cages, these containers work well for Poinsettia, Mum and Nursery crops that need plant support.

Injection Molded Shuttle™ Baskets and Shuttle™ Planters that are offered in black or gray are manufactured using over 90% of post consumer recycled horticultural containers!

A-Series Flats and Inserts

A-Series Flat (10 7/8" x 21 1/4")

Our largest footprint flat and insert system, measuring 10 7/8" x 21 1/4". All A-Series inserts have a variety of compatible A-Series flats to meet any planting requirement, including Press-Fit square pots, and feature the following for greater efficiency and yield:

- Instant two-finger de-nesting, insert after insert.
- Consistent cell thickness, producing uniform strength throughout the entire insert and preventing a paper-thin bottom.
- Easy pack separation, due to clean and consistent trim with precise serrations.
- Uniform drainage holes and channels for complete and even drainage of the cell.

T-Series Flats and Inserts

T-Series Flat (10" x 20")

T-Series, or "true" flats and inserts, utilize a space-saving 10" x 20" footprint. However, they have virtually the same soil volume as the A-Series insert, because the T-Series inserts are a full 3/8" deeper. The result is more flats per bench, cart, truck and retail facing.

✓ Items denoted by this icon are items we keep in stock.

✗ Items denoted by this icon are non-stock items and will need to be ordered.

Ⓢ Items denoted by this icon are seasonal-stock items and will be in stock during the items seasonal use.

✓ **FLATS & INSERTS: A SERIES**

Our largest system.

Our largest footprint flat and insert system, measuring 10 7/8" x 21 1/4". A Series inserts have a variety of compatible A Series flats to meet any planting requirement, including Press-Fit square pots, and feature the following for greater efficiency and yield:

- Instant two-finger de-nesting, insert after insert.
- Consistent cell thickness, producing uniform strength throughout the entire insert and preventing a paper-thin bottom.
- Easy pack separation, due to clean and consistent trim with precise serrations.
- Uniform drainage holes and channels for complete and even drainage of the cell.

✓ **FLATS & INSERTS: T SERIES**

Space saving footprint.

T-Series, or "true" flats and inserts, utilize a space-saving 10"x20" footprint. Although the footprint is approximately 13% smaller than that of the A Series, the soil volume is virtually equal to the corresponding A Series inset. This is because the T Series inserts are a full 3/8" deeper than the A Series inserts. The result is more flats per bench, cart, truck and retail facing.

✗ **FLATS & INSERTS: S SERIES**

Narrower and automation-tough!

The S Series, or Slimline, has 8 1/2" x 20" footprint. To support the inserts, S Series flats have matching full-height support ribs. The tidy fit of the Slimline Series presents a stable and solid package that withstands the rigors of automation from transplanting to shipping. Another advantage of the Slimline system is the ease of labeling it offers to price and identify your crop.

✗ **FLATS & INSERTS: CT, E, G, K, L, Y SERIES**

The CT Series represents an 11 1/2" x 14 3/4" flat which has long been called the Connecticut Flat. The E Series footprint is 6 2/3" x 19 3/4". The EF Press-Fit Tray is quite versatile. With its 7" x 21" footprint, the G Series is a space-saving design with several insert and pot options. With an 8" x 20" footprint, the K Series provides a space-saving option without compromising your crop.

The L Series offers a 7 1/2" x 20" footprint.

With an 8 1/2" x 21" footprint, the Y Series system has several distinct options.

FOLIAGE RINGS

Foliage Rings support heavy foliage from falling over, encourage uniform growth, and protect during sleeving and transport.

Grower Tip: Order a size larger than your pot size to easily pull ring up from the bottom.

Cyclone Ring

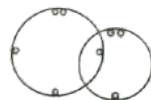

- Improve shape consistency of bushy plants
- For Use: Place ring on plants at 3" to 5" of growth and prior to budding of flowers. Allow ring to rest on foliage as to elevate with plant growth. If plant cuttings are not growing at the same pace, lift the unlevel part of the ring and situate until level.

Product	Diameter		Pcs/Box
	in	cm	
8" Cyclone Ring	8	20.3	300
10" Cyclone Ring	10	25.4	300
12" Cyclone Ring	12	30.4	350
14" Cyclone Ring	14	35.5	450
16" Cyclone Ring	16	40.6	550

Plant Support Ring

- Only Compatible with Plastic Injection Molded Pots
- How to check your pot: Squeeze it! Is it rigid? If so it is Plastic Injection, this product is compatible.

Stake Ring

- Support top-heavy or climbing plants.
- Efficient replacement for garden twine.
- For Use: Cut ring between double eyelet and wrap ring around plant, then stake the two eyelets, which had been cut apart, together.

Product	Diameter		Eyelets	Pcs/Box
	in	cm		
4" Stake Ring	4	10.1	3	650

The **Smart Pot®**, patented Aeration Container has consistently proven to be the performance container for superior plant growth. The porous, long lasting fabric provides excellent drainage, releases excessive heat during hot summer days and air root prunes. The **Smart Pot®** provides an ideal environment encouraging a strong, well-developed root system, the foundation for vigorous, healthy plant growth and bountiful flowers and vegetables.

University tested, weatherproof – lasts for years, warms quickly in spring – releases excessive heat in summer, provides excellent drainage, air root prunes, prevents soil compaction, use for flowers, vegetables and herbs.

Jiffy Pots & Jiffy Strips are all natural, pre-formed pots & strips used by professional growers worldwide. Made of Canadian sphagnum peat moss & wood pulp, Jiffy Strips & Pots are 100% biodegradable. Transplant directly into the ground or larger containers; minimize transplant shock & root damage. Cartons are made for fast, easy, in-store merchandising.

✓ JIFFY POTS

Available in a wide range of sizes to give quality growth. Perfect for nurserymen & bedding plant growers.

✕ Oasis® Growing Medium Makes It Easy To Grow.

OASIS Growing Medium minimizes the need for dibbling & direct root growth downward.

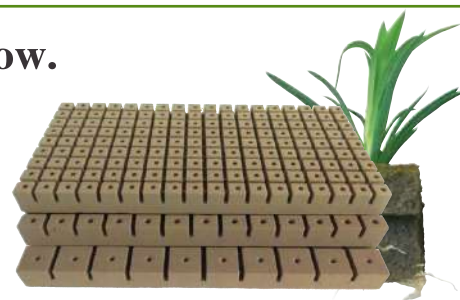

- Engineered optimum balance of air & water
- Low cation exchange capacity allows rapid nutrient availability without danger of salt accumulation
- Stabilized pH (5.5-6.5)
- Ready to use
- Inert & sterile when received, free pathogens
- Faster rooting
- A small amount of 1-1-1 nutrition serves as a plant starter
- Special additive to enhance cation exchange

✕ Oasis® Growing Medium Makes It Easy To Grow.

5635	Wedge Strip	10 units/strip w/clips	280

✕ Oasis Fertiss® Propagation Plug System

The Fertiss® media mix is composed of a special blend of long-fiber sphagnum peat moss, perlite & vermiculite that is bound by a cellulose non-woven net. As cuttings take root, the lightweight fabric allows for root penetration to the outside air. Once primary roots have penetrated the webbing into the air gap, the natural "air pruning" takes place & promotes dense secondary roots. This air pruning process helps to reduce root spiraling in the plug & speed up the establishment of plants after transplanting.

The unique tray design also fosters the flow of air to the cuttings which reduces the risk of diseases. The Fertiss® tray design also makes sorting & grading of rooted plugs very easy. The shape and consistency of the plugs help make potting easy, whether manually or with automatic transplanters.

PRO-LINE

✗ Pro-Line C/G

A lightweight blend of Canadian sphagnum peat, coarse perlite and medium vermiculite is geared toward the production of bedding plants and hanging baskets. C/G is a multi-purpose mix with a wide range of applications. C/G is an appropriate soil mix for: Flowering and foliage plants, hanging baskets, seeds and cuttings. This mix does not include slow release nitrogen. Average density 10-12 lbs/cubic foot.

✗ Pro-Line C/S

Our 21G is a blend of processed pine bark fines, Canadian sphagnum peat and coarse perlite. A starter charge, pH adjustment and wetting agents are included. The mix is medium textured and drains well. 21G is an appropriate soil mix for: Flowering and foliage plants, hanging baskets, mums, perennials and poinsettias. Average density 15-18 lbs/cubic foot.

✗ Pro-Line 22G

Our 22G is a peat-based greenhouse mix and is a blend of Canadian sphagnum peat, processed pine bark fines, and coarse perlite. The mix is lightweight and easy to handle. The texture of the mix allows for good air space and helps provide proper drainage. 22G is an ideal soil mix for: Bedding plants, hanging baskets, mums and poinsettias. Average density 15-18 lbs/cubic foot.

✗ Pro-Line C/V

Our blend of Canadian sphagnum peat, processed pine bark fines and medium vermiculite is geared toward growing flowering plants. The texture of the mix is fine to medium and works well with sub-irrigation and drip tube systems. C/V is an appropriate soil mix for: Flowering and foliage plants, hanging baskets and bedding plants. Average density 14-16 lbs/cubic foot.

✓ Pro-Line C/20

Our light weight mix of Canadian sphagnum peat and perlite is a great general-purpose mix recommended for a wide variety of potted plants and hanging baskets. C/20 is an appropriate soil mix for: Flowering and foliage plants, hanging baskets, seeds and cuttings. Average density 10-12 lbs/cubic foot.

✗ Pro-Line C/P

Our blend consists of Canadian sphagnum peat, processed pine bark fines, coarse perlite and medium vermiculite. C/P is geared toward growing of mums and poinsettias. The texture of the mix allows for good air space and helps provide proper drainage. Also appropriate for flowering and foliage plants, hanging baskets, bedding plants. Average density 14-16 lbs/cubic foot

✓ Pro-Line C/B

A blend of Canadian sphagnum peat, processed pine bark fines, coarse perlite and medium vermiculite, C/B is geared toward growing flowering plants. The medium texture of the mix holds moisture well. A true all purpose mix. C/B is an appropriate soil mix for: Flowering and foliage plants, hanging baskets and bedding plants. Average density 13-16 lbs/cubic foot.

✓ Pro-Line C/25

This blend of processed pine bark fines, Canadian sphagnum peat, coarse perlite and medium vermiculite is geared toward growing perennials. C/25 is a coarse textured mix that allows for good air space and helps promote proper drainage. C/25 is an appropriate mix for: Flowering and foliage plants, hanging baskets, roses and garden mums, nursery containers and interior planters.

Typical Nutrient Analysis*

Saturated Media Extract (SME) procedure. Results in PPM

NH ₄ -N	NO ₃ -N	P	K	Ca	Mg	Zn	B	Cu	Fe	Mn	Mo	Na	S
0-50	40-150	0-40	100-300	50-200	40-200	0-1.0	0-0.15	0-0.12	0.5-5	0-4	0-0.15	20-50	100-250

The typical pH range is 5.5 - 6.5, after initial wetting with distilled water using the SME method. Typical EC range: 1.0-2.5

Components Typically Included:

Starter Nutrition	x
Micronutrients	x
Controlled release Nitrogen	x
Wetting Agent	x
Limestone	x

Water quality and fertilizer use can and will affect soil pH and EC.

Begin fertilization with a complete fertilizer within a week of planting. Mixes containing pine bark may require higher fertilization levels than mixes without pine bark. Application rates should be based on current horticultural literature and practice. Use of mixes containing pine bark generally requires the addition of nitrate nitrogen.

BM 1

General purpose mix

Incubated pH = 5.4 - 6.2

Coarse peat moss; Horticultural perlite; Horticultural Vermiculite; Dolomitic limestone; Calcitic limestone; Non-ionic wetting agent; starter charge

The most popular in the series.

Uses: General greenhouse use; propagation/cuttings; sub-irrigation

Plants: General purpose, bedding plants, potted plants, propagation/cuttings

BM 6

Standard

Incubated pH = 5.4 - 6.2

Coarse peat moss, horticultural perlite, dolomitic limestone, calcitic limestone, non-ionic wetting agent, and starter charge

Standard porosity.

Uses: General purpose, bedding plants, potted plants, propagation/cuttings

High Porosity

Incubated pH = 5.4 - 6.2

Coarse peat moss, horticultural perlite, dolomitic limestone, calcitic limestone, non-ionic wetting agent, and starter charge

High porosity.

Uses: General purpose, sub-irrigation, bedding, foliage, vegetables, potted plants

BM 2

Germinating Mix

Incubated pH = 5.2 - 6.0

Fine peat moss; Fine perlite; Fine vermiculite; Dolomitic limestone; Calcitic limestone; Non-ionic wetting agent; Starter charge

The most popular in the series.

Uses: Seed germination/seedlings

Plants: Greenhouse vegetables, plugs, trays, floating system

PROMIX[®]

- FOR PROFESSIONAL GROWERS - NOTHING SAYS GROWING MEDIA BETTER

PRO-MIX BX MYCORRHIZAE

BX - general purpose PRO-MIX BX is a solution for growers seeking to benefit from both the nutrient retention ability of vermiculite and a perlite content providing limited but proper drainage capacities. Combined with high-quality fibrous peat moss, this formulation is ideal for growers looking for a general purpose medium which creates a well-balanced growing environment.

INGREDIENTS: AESPHAGNUM PEAT MOSS (75-85%), PERLITE, VERMICULITE, LIMESTONE, WETTING AGENT, MYCORRHIZAE - GHA297 TECHNOLOGY

- Improves fertilizer uptake; reduces fertilizer costs
- Increases the resistance of plant to stresses; reduces maintenance costs
- Optimizes results without changing growing practices
- Increased root mass, flower production, plant size, yield, shelf life
- Improved water uptake and increased drought resistance

CROPS:

- Annuals
- Perennials
- Foliage plants
- Potted flowering plants
- Vegetable transplants
- Greenhouse vegetables
- Indoor gardening

PRO-MIX PGX

PGX PLUG AND GERMINATION. Balance and precision are essential in horticulture, even more so at the beginning of a crop. PRO-MIX® PGX BIOFUNGICIDE™ is formulated with vermiculite for increased buffering capacity and nutrient retention, which are important at the early stages of plant growth. This carefully developed formulation optimizes plant growth by creating a root zone environment with high water retention and aeration that is well adapted for plug production and seed germination applications. BIOFUNGICIDE™ is included to suppress root pathogens (Fusarium, Pythium and Rhizoctonia) that cause root diseases. **INGREDIENTS:** • Canadian Sphagnum peat moss — short fiber (75-85% by volume) • Vermiculite — plug grade • Dolomitic and calclitic limestone • Wetting agent. **ACTIVE INGREDIENTS:** BIOFUNGICIDE™ Chart info: Stock 2.8 rest non stock.

PRO-MIX PREMIUM POTTING MIX

- Ideal for all seed starting applications
 - Suitable for potting and re-potting plants in containers
 - Contains a slow release fertilizer that feeds for up to 9 months
 - Formulated with a water saving gel to hold extra water
- Components: Canadian sphagnum peat moss, Peat humus, Water-absorbent polymer, Perlite, Limestone, Controlled release fertilizer, Mycorrhizae.
- Uses: Indoor, Outdoor container, and Seed Starting & Cuttings.

SIZES:
8 qt - 36 cases of 6
16 qt - 35 cases of 6
1 cu ft - 120 bags
2 cu ft - 54 bags

PRO-MIX PREMIUM GARDEN MIX

- Ideal for perennials and flowering shrubs
 - Suitable for planting outdoor plants and vegetables
 - Contains a slow release fertilizer that feeds for up to 9 months
 - Formulated with a high peat humus percentage
- Components: Canadian sphagnum peat moss, Peat humus, Limestone, controlled release fertilizer, and Mycorrhizae.
- Uses: Outdoor

SIZES:
1 cu ft - 120 bags
2 cu ft - 54 bags

PRO-MIX PREMIUM ALL-PURPOSE MIX

- Contains a specially formulated starter fertilizer
 - Formulated for a wide range of plants
- Components: Canadian sphagnum peat moss, Peat humus, Limestone, Controlled release fertilizer, and Mycorrhizae.
- Uses: Indoor, Outdoor, Outdoor container, Seed Starting & Cuttings, and Soil preparation

SIZES:
1.5 cu ft - 92 bags
2 cu ft
compressed - 50 bales

PRO-MIX PREMIUM ORGANIC VEGETABLE & HERB MIX

- Formulated with all-natural ingredients
 - Organic fertilizer that gradually feeds plants
 - Suitable for all vegetable and herb garden needs
 - OMRI Listed for use in organic gardening
- Components: Canadian sphagnum peat moss,
- Uses: Indoor, Outdoor container, Soil preparation.

SIZES:
16 qt - 35 cases of 6
1 cu ft - 120 bags
2 cu ft - 54 bags

PRO-MIX PREMIUM ALL-PURPOSE ORGANIC GARDEN MIX

- Formulated with natural ingredients
 - Ideal for raised bed and all outdoor planting needs
 - Contains compost -free organic material and mycorrhizae for plant health.
- Components: Canadian
- Uses: Indoor, Outdoor container, Soil preparation.

PRO-MIX PREMIUM ORGANIC POTTING MIX

- Formulated with natural ingredients
- Suitable for all container plating needs
- Contains compost-free organic material and mycorrhiza for plant health

Components: Canadian sphagnum peat moss, Peat humus, Coconut fiber, Perlite, Limestone, Organic fertilizer and Mycorrhizae

Uses: Indoor, Outdoor container, and Seed Starting & Cuttings.

SIZES:

1 cu ft - 120 bags

PRO-MIX PREMIUM ORGANIC SEED STARTING MIX

- Ideal for the germination of vegetable, Flower and herb seeds and for starting stems and tooting cuttings
- Contains an organic fertilizer that gradually feeds plants
- Provides easy plant care fort improved seedling performance

Components: Canadian sphagnum peat moss, Peat humus Coir fiber, Perlite, Limestone, Organic fertilizer, and Mycorrhizae.

Uses: Indoor, and Seed Starting & Cuttings.

SIZES:

8 Qt - 36 cases of 6

16 Qt - 35 cases of 6

PREMIER ORGANIC GARDEN SOIL

- Feeds up to 3 months
- Ideal soil for edible vegetables, flowers, trees and shrubs
- Rich in organic matter that conditions and improves soil structure
- Enriched with fertilizer for beautiful flowers and shrubs and bigger vegetables

Components: Aged forest products, Canadian sphagnum peat moss, Perlite, Limestone, Wetting agent and Fertilizer.

SIZES:

1 cu ft - 60 bags

PREMIER POTTING SOIL

- Feeds up to 9 months
- Ensures excellent aeration and drains excess water, holding moisture to prevent roots from dying out
- Will give you professional results in transplanting of indoor and outdoor potted and container plants

Components: Aged forest products, Canadian sphagnum peat moss, Perlite, Limestone, and Controlled released fertilizer.

SIZES:

8 qt - 120 bags

1 cu ft - 60 bags

2 cu ft - 39 bags

PREMIER SEA-BASED ALL-PURPOSE SOIL

- Feeds up to 3 months
- Organic-based sea extracts
- Ideal for growing flowers, vegetables, herbs, and fruit
- Indoors or outdoors, in ground or in container
- Less watering required vs traditional peat-based formulas

Components: Bark fine, Canadian sphagnum peat moss, Wood fines, Sea based organic fertilizer, Poultry based fertilizer, Wetting agent, and Limestone

SIZES:

1 cu ft - 80 bags

BACCTO PREMIUM POTTING SOIL

An excellent general-purpose potting soil for indoor and outdoor plantings in containers and beds, Baccto Premium Potting Soil provides a premium blend of naturally nutritious dark reed sedge peat, perlite, and sand. Baccto Premium Potting Soil includes both starter and slow-release fertilizers to provide the optimal growing environment in one easy-to-use product.

✓ FAFARD® CACTUS & SUCCULENT POTTING MIX

- Formerly Fafard® Complete Container Mix
- This all-purpose container mix with Moisture Pro™ water holding crystals, helps maintain mix moisture for longer, and an extended-release fertilizer to keep plants fed up to six months
- Available Sizes: 8 QT (200/pallet), 1 CF (90/pallet), 2 CF (48/pallet)

Ingredients: Regionally formulated blend of Canadian Sphagnum peat moss and one or more of the following: peat moss, processed softwood bark, forest products, compost, perlite, vermiculite, peanut hulls; dolomitic limestone, controlled release fertilizer, hydrogel and wetting agent

✓ FAFARD® ORCHID POTTING MIX

- Formerly Fafard® Complete Planting Mix
- Rich in organic matter, this high-quality planting mix has been formulated for garden and landscape planting
- It contains Canadian Sphagnum peat moss and aged pine bark to add structure and needed organic matter to clay-rich or sandy soils
- Available Sizes: 8 QT (200/pallet), 1 CF (90/pallet)

Ingredients: Regionally formulated and contains a blend of processed softwood bark and one or more of the following: forest products or compost; Canadian Sphagnum peat moss or peat, vermiculite, perlite or peanut hulls and dolomitic limestone.

✓ FAFARD® AFRICAN VIOLET POTTING MIX

- Formerly Fafard® Complete Potting Mix
- A rich, ready-to-use potting mix recommended for a wide variety of bedding and potted plants grown indoors and out
- It is fortified with a slow-release fertilizer that continues to feed plants for up to six months
- Available Sizes: 8 QT (200/pallet), 1 CF (90/pallet), 2 CF (48/pallet)

Ingredients: Regionally formulated and is a blend of Canadian Sphagnum peat moss and one or more of the following: peat moss, processed softwood bark, forest products, compost, perlite, vermiculite, peanut hulls; dolomitic limestone controlled release fertilizer and wetting agent.

FAFARD® POTTING MIX SEED STARTER

- An all-purpose potting mix based on our professional formulation used by commercial growers, Fafard Professional Potting Mix is a top-quality peat-based blend recommended for all indoor and outdoor container plantings
- Available Sizes: 8 QT (200/pallet), 1 CF (90/pallet), 2 CF (48/pallet)

Ingredients: Regionally formulated and contains a blend of Canadian Sphagnum peat moss or peat moss and one or more of the following: processed softwood bark, forest products, compost, perlite, vermiculite or peanut hulls; dolomitic limestone and wetting agent

✓ FAFARD® ULTRA POTTING SOIL WITH EXTENDED FEED

- Formerly Fafard® Complete Potting Mix
- A rich, ready-to-use potting mix recommended for a wide variety of bedding and potted plants grown indoors and out
- It is fortified with a slow-release fertilizer that continues to feed plants for up to six months
- Available Sizes: 8 QT (200/pallet), 1 CF (90/pallet), 2 CF (48/pallet)

Ingredients: Regionally formulated and is a blend of Canadian Sphagnum peat moss and one or more of the following: peat moss, processed softwood bark, forest products, compost, perlite, vermiculite, peanut hulls; dolomitic limestone controlled release fertilizer and wetting agent.

Daddy Pete's Barnyard Fertilizer is a pelleted lawn and garden fertilizer for all 4 seasons: spring, summer, fall, and winter. It adds essential organic matter to your soil while fertilizing your lawn or gardening project. The beneficial micro-organisms provided by Daddy Pete's Barnyard Fertilizer can aid in defending plants against viral, fungal, pathogenic, root, vascular, and foliar diseases. As these beneficial micro-organisms are depleted out of the soil over time, and to avoid soil compaction and to replenish nutrients, it is recommended to apply Daddy Pete's Barnyard Fertilizer every 3-4 months throughout the year to maintain a healthy soil environment for your lawn or garden.

Ingredients: Daddy Pete's Composted Cow Manure & Daddy Pete's Composted Chicken Manure. Guaranteed Analysis: Total Nitrogen (N) - 2.0 • Ammoniacal Nitrogen - .60 • W.I.N. - 1.4 • Available Phosphate (P2O5) - 2.0 • Potash (K2O) - 2.0 • Product Uses: Roses & Nursery Stock, Trees, Shrubs, Vegetables, Raised Beds, Containers, Hanging Baskets, Annuals, Perennials, Lawns, Fruits, Herbs

Daddy Pete's Sea n' Farm Potting Soil as a premium potting soil for indoor and outdoor container plants. The beneficial micro-organisms provided by Daddy Pete's Composted Cow Manure, which is part of Daddy Pete's Sea n' Farm Potting Soil, can aid in defending plants against viral, fungal, pathogenic, root, vascular, and foliar diseases. As these beneficial microorganisms are depleted out of the soil over time, and to avoid soil compaction and to replenish nutrients, it is recommended to apply Daddy Pete's Sea n' Farm Potting Soil every 3-4 months to maintain a healthy soil environment for your plants

Ingredients: Daddy Pete's Composted Cow • Manure, Sphagnum Peat Moss • Premium Aged Pine Bark Fines • Perlite, Sandy Loam, Oyster Shell, Oceanic Fish Meal, Crab Meal, Shrimp Meal, Earthworm Castings. Product Uses: Raised Beds, Containers, Seeds, Annuals, Herbs. Available Bag Sizes 10 QT & 38 QT

Daddy Pete's Sandy Loam Top Soil is a premium, all-purpose top soil used for top dressing lawns, for patching and filling bare spots in lawns, for leveling low places in gardens and lawns, for planting, and for seeding. Applying the correct amount to your lawn or garden will help improve its fertility and drainage characteristics. The beneficial micro organisms provided can aid in defending plants against viral, fungal, pathogenic, root, and foliar diseases. As these beneficial micro-organisms are depleted out of the soil over time, and to avoid soil compaction and to replenish nutrients, it is recommended to apply Daddy Pete's Sandy Loam Top Soil in early fall and early spring to maintain a healthy soil environment for your lawn or garden.

Ingredients: Sandy Loam Soil Enriched with Daddy Pete's Composted Cow Manure. Product Uses: Amending Soil, Lawns. Available Bag Sizes 1 CF

Daddy Pete's Manure goes through several stages of decomposition. Over a period of 40-60 days, microorganisms convert biodegradable organic matter in the manure to oxidized products. The interior temperature of the cow manure while composting reaches approximately 160 degrees F which is beneficial in eliminating weeds, seeds, and pathogens. This 100% natural fertilizer can be applied generously anytime during the year to build a rich, humus soil. It is also a natural moisture control product.

Ingredients: Organic Composted Cow Manure. Guaranteed Analysis. Total Nitrogen (N) - .5 Ammoniacal Nitrogen - .25 W.I.N. - .25. Available Phosphate (P2O5) - .5 Potash (K2O) - .5 Product Uses: Amending Soil, Lawns. Available Bag Sizes 10 LB, 25 LB, 50 LB

Daddy Pete's Kickin' Chicken is a rich, organic blend of composted chicken manure and Daddy Pete's Composted Cow Manure. This mix can be used for top dressing lawns, and amending soils. It can also be incorporated into the processing of soils for new lawns and landscaping projects, and it makes a great organic fertilizer.

Ingredients: Daddy Pete's Cow Manure, Daddy Pete's Composted Chicken Manure. Guaranteed Analysis. Total Nitrogen (N) - 1.5, Ammoniacal Nitrogen - .35, W.I.N. - 1.15, Available Phosphate (P2O5) - 1.0 Potash (K2O) - 1.5. Product Uses: Amending Soil, Lawns. Available Bag Sizes 40 LB

Pete's Lawn & Garden Soil, organic soil can be used to patch or fill bare spots in your lawn or garden, or to build a good foundation for your gardening project. This organic Lawn and Garden Soil mixture is suitable for seeding new lawns, for rejuvenating established lawns, for top dressing lawns, for flower and vegetable gardens, for backfilling plant holes, and for general landscape applications.

Ingredients: Daddy Pete's Composted Cow Manure, Premium Aged Pine Bark Fines, Sand, Gypsum. Product Uses: Amending Soil, Vegetables, Raised Beds, Lawns. Available Bag Sizes 1.5 CF

50 POTTING SOILS

Pete's Mushroom Compost is a great organic amendment for enriching the soil used to grow fruits, vegetables, and even flowers. You can use this organic mushroom compost in the garden to fortify the soil, to increase the depth of your raised beds, and to improve your soil's texture.

Ingredients: Natural Compost Mixture. Product Uses: Amending Soil, Vegetables. Available Bag Sizes 25 QT

Pete's Nursery Blend is the same product used by many professional wholesale growers in the Carolina's who are growing woody ornamentals, evergreens, roses, perennials, and mums. This organic blend can be used indoors and outdoors as a regular mix for various types of plants, trees, and shrubs; and this combination of materials will hold moisture well.

Ingredients: Premium Aged Pine Bark Fines, Daddy Pete's Composted Cow Manure, Perlite, Dolomitic Lime
Product Uses: Roses & Nursery Stock, Raised Beds, Containers, Annuals, Perennials. Available Bag Sizes 25 QT, 50 QT

Pete's Perennial Pleaser, this organic blend can be used for most perennials and herbaceous crops. It has a greater ratio of perlite than Pete's Nursery Blend, which creates more aeration for your soil. Many perennials need a well-drained soil, and Pete's Perennial Pleaser provides ample drainage, while providing great moisture retention.

Ingredients: Premium Aged Pine Bark Fines, Daddy Pete's Composted Cow Manure, Perlite, Dolomitic Lime
Product Uses: Roses & Nursery Stock, Raised Beds, Containers, Annuals, Perennials, Herbs.
Available Bag Sizes 25 QT, 2 CF

Pete-Lite Mix can be used for bedding plants, hanging baskets, propagation, cell packs, and seed germination, as well as for growing various other plants. A fertilization program should be utilized in accordance with horticultural recommendations.

Ingredients: Premium Aged Pine Bark Fines, Sphagnum Peat Moss, Perlite. Product Uses: Hanging Baskets, Seeds, Annuals, Herbs. Available Bag Sizes 25 QT, 50 QT

Pete's Planting Mix helps to enhance soils back to life. The aged pine bark fines provide air space, while the composted cow manure will help retain moisture and add natural nutrition to your soils. This organic matter will improve the humus growth of plants and trees. A properly planted tree or shrub will be more tolerant of adverse conditions and require much less management than one planted incorrectly. This blend works best when mixed with your existing soil to plant shrubs and trees. Mix 50% of Daddy Pete's Planting Mix with 50% of your existing soil to create a nutritional growing medium.

Ingredients: Daddy Pete's Composted Cow Manure, Premium Aged Pine Bark Fines. Product Uses: Roses & Nursery Stock, Amending Soil, Trees, Shrubs. Available Bag Sizes 25 QT, 2 CF

Pete's Planting Mix Plus PermaTill® is great for building beds, for soil conditioning, and for discouraging vole activity. PermaTill® is a unique product produced by a special slate that is found in Gold Hill, North Carolina. PermaTill discourages underground voles from feeding on the roots and bulbs of many landscape plants. It is permanent, offers superior drainage and aeration, and has a nutrient holding and exchanging ability.

Ingredients: Daddy Pete's Composted Cow Manure, Premium Aged Pine Bark Fines, PermaTill®
Product Uses: Roses & Nursery Stock, Amending Soil, Shrubs. Available Bag Sizes 1.5 CF

Pete's Potting Mix this organic mix provides excellent drainage for all types of plants without causing root compaction. Rich in nitrogen, phosphate, potash, and calcium, it can be used for home plants - indoors and outdoors. This mix works great for re-potting plants, for establishing a permanent soil for your new plants, or for use with any container gardening.

Ingredients: Daddy Pete's Composted Cow Manure, Premium Aged Pine Bark Fines, Perlite, Gypsum
Product Uses: Vegetables, Raised Beds, Containers, Hanging Baskets, Annuals, Herb
Available Bag Sizes 10 QT, 25 QT, 50 QT

Pete's Professional Landscape Mix is great for building and maintaining a professional landscape or garden. The aged bark provides an excellent mulch for your landscape; while the composted cow manure helps to feed your plants over time, thus promoting plant health.

Ingredients: Daddy Pete's Composted Cow Manure, Aged Bark. Product Uses: Amending Soil, Trees, Shrubs, Mulching
Available Bag Sizes 2 CF

Available Bag Sizes 25 QT, 2 CF

Pete-Lite Mix can be used for bedding plants, hanging baskets, propagation, cell packs, and seed germination, as well as for growing various other plants. A fertilization program should be utilized in accordance with horticultural recommendations.

Ingredients: Premium Aged Pine Bark Fines, Sphagnum Peat Moss, Perlite. Product Uses: Hanging Baskets, Seeds, Annuals, Herbs. Available Bag Sizes 25 QT, 50 QT

Pete's Hardwood Mulch provides a number of benefits to the landscape. From the water conservation standpoint, mulch prevents evaporative water loss from the soil. It also prevents certain soil-borne diseases by acting as a barrier between the soil and the plant. It insulates the roots of plants from extreme heat and cold, and it reduces weed competition by blocking light and by preventing some weed seeds from germinating.

Ingredients: Hardwood Mulch. Product Uses: Mulching. Available Bag Sizes 2 CF

Pete's Pine Bark Mini-Nuggets are pieces of pine bark, approximately 1-2 1/2 square inches, manufactured from the barks of pine trees. These smaller, decorative pieces are great as a ground cover. While giving a nice rustic look to your landscape, they decompose slowly because of their size.

Ingredients: Hardwood Mulch. Product Uses: Mulching. Available Bag Sizes 2 CF

Pete's Pine Bark Mulch provides a number of benefits to the landscape. From the water conservation standpoint, mulch prevents evaporative water loss from the soil. It also prevents certain soil-borne diseases by acting as a barrier between the soil and the plant. It insulates the roots of plants from extreme heat and cold, and it reduces weed competition by blocking light and by preventing some weed seeds from germinating.

Ingredients: Pine Bark Mulch. Product Uses: Mulching. Available Bag Sizes 2 CF

Daddy Pete's Roasted Sawdust is a natural sawdust with no chemicals added, that is roasted and then bagged in its pure, organic state. It is roasted to a temperature of 160°F to kill harmful pathogens and mold spores. The process of roasting prepares the sawdust to be a more absorbent bedding for animals. Our roasted sawdust works great as bedding for horses, dogs, and other pets and livestock animals. In addition to absorbing moisture, it also helps to reduce odor. It may be used as a landscape and ground cover material as well.

Ingredients: Pine and/or Hardwood Sawdust. Product Uses: Animal Bedding. Available Bag Sizes 2 CF

Pete's Soil Enhancer in all your soil preparations. Our Soil Enhancer is a great clay buster and soil loosening agent. Using Daddy Pete's Soil Enhancer in your soil before sowing or planting helps ensure that your plants will have the ample drainage and oxygen needed to grow healthy plants, trees, lawns, and shrubs.

Ingredients: Premium Aged Pine Bark Fines. Product Uses: Amending Soil, Mulching. Available Bag Sizes 2 CF

✓ COCO LOCO POTTING MIX

As you trek through a tropical jungle, your steps remain light and buoyant, never soggy. The rainforest floor is remarkably deep with layers of exotic coconut palm humus. It is cool and damp for several inches. Hold the richness in your hands, feel the soft silky texture. It's the perfect medium for cultivating plants. Plants growing in Coco Loco® will require less frequent watering. Whether you're growing in hanging baskets, vertical gardens, containers, or seedling trays, extend your watering schedule. In most climates, every two or three days will be enough. Always adjust your watering schedule as needed. • Plants Require Less Frequent Watering • Contains Custom Blend of Soil Microbes • With Earthworm Castings and Bat Guano • Includes Perlite for Aeration and Drainage. 12 quart / 2 cuft / 27 cuft tote / 55 cuft tote

✓ SALAMANDER POTTING MIX

The smooth shiny Salamander is a true delight of Nature. These beautiful little creatures come in a bright kaleidoscope of colors and call these forests their home. Salamanders always find the right habitat to flourish in. We have created our water holding Salamander Soil® Potting Mix so that your plants can moisturize in the same way as this special animal. Your precious little seedlings and plants will have access to the benefits of a potting mix full of NEWT-tritive properties. Under the right moisture conditions beneficial microorganisms can flourish and NEWT-trient uptake may be enhanced. Plants that are grown in hot climates need that extra thirst quench so that they can stay vigorous and not get stressed from drying out. The inconvenience of frequent waterings is sometimes problematic for growers who just can't get to their plants in time. Moisture has to be accurate; too much will cause root rot and plants will suffer. Use Salamander Soil® for rooted cuttings and young plant starts for both indoor and outdoor cultivation. Plant directly into Salamander Soil® Potting Mix. Make Your Neighbors Jealous! • Water Less Frequently • Contains 60 to 70% Coco Coir • Ready-to-use Potting Mix • Contains Custom Blend of Soil Microbes • 1.5 cuft / 27 cuft tote / 55 cuft tote

✓ HAPPY FROG POTTING SOIL

Your potted plants deserve the best. Their roots can't seek out nutrition in the ground, so you have to bring it to them. That's why Happy Frog® Potting Soil is amended with soil microbes that can help improve root efficiency and encourage nutrient uptake. Between the earthworm castings, bat guano, and aged forest products, your container plants have never felt so good. Embrace the Vitality of Happy Frog®! • Ready-to-Use For Indoor and Outdoor Plants • Richly Amended Container Blend • Contains Custom Blend of Soil Microbes. 12 quart / 2 cuft / 27 cuft tote / 55 cuft tote

✓ OCEAN FOREST POTTING SOIL

Our most popular potting soil, Ocean Forest® is a powerhouse blend of aged forest products, sphagnum peat moss, earthworm castings, bat guano, fish emulsion, and crab meal. Aged forest products, sandy loam, and sphagnum peat moss give Ocean Forest® its light, aerated texture. Start with Ocean Forest® and watch your plants come alive! • Ideal for Container Gardens & Houseplants • Light Texture for Aeration and Drainage • Growing Medium for Plant Starts and Seedlings • 12 quart / 1.5 cuft / 3 cuft grow bag / 27 cuft tote / 55 cuft tote

✓ BIG & CHUNKY PERLITE

Use Big & Chunky® Perlite in containers with our Ocean Forest® or Happy Frog® Potting Soil to help improve drainage and keep roots oxygenated. Use it as a stand-alone hydroponic grow medium, or combine it with our Light Warrior® Seed Starter for your cuttings and seedlings. Helps Improve Drainage in Container Plantings • Ideal as a Hydroponic Grow Medium • Helps to Keep Roots Oxygenated. 4 cubic foot

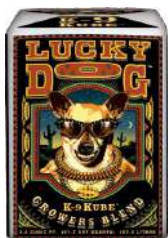

✓ CULTIVATION NATION SEVENTY THIRTY

Cultivation Nation® Seventy Thirty Growing Media is a mixture of buffered coconut coir and perlite, blended in the classic ratio of 70:30. Coconut coir is known for its water holding capabilities, and perlite is included to provide air spaces in the media, facilitating aeration and drainage. Cultivation Nation® Seventy Thirty Growing Media is great for use with customized feeding schedules in indoor and outdoor containers. For best results, use in conjunction with our Cultivation Nation® fertilizers and pH adjusters. • 70% Buffered Coco coir and 30% perlite • Classic blend for aeration and drainage • For indoor or outdoor container use • For customized feeding schedules • 2 cubic foot / 27 cubic foot tote / 55 cubic foot tote

✓ **LUCKY DOG K-9 KUBE**

This light airy blend of peat moss and perlite is the answer to every gardener's quandary. Unleash the Lucky Dog® K-9 Kube® Growers Blend and plant into this richly amended mix. Lucky Dog® Growers Blend comes right out of the bale with soil microbes that may enhance root efficiency. This can provide more opportunity for nutrient availability and may increase fruit and flower production. Use Lucky Dog® for rooted cuttings and young plant starts for both indoor and outdoor cultivation. Plant directly into Lucky Dog® Growers Blend. • Ready to Use, Richly Amended • Contains Earthworm Castings • For Rooted Cuttings and Young Plants • A Light Airy Blend of Peat Moss and Perlite • 2.2 cubic foot bale / 3.8 cubic foot bale

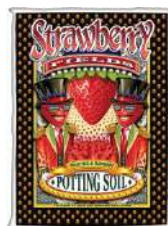

✗ **LIGHT WARRIOR SEED STARTER**

Light Warrior® Seed Starter is designed to promote an environment beneficial to seed germination and root development. Light Warrior® Seed Starter includes soil microbes that can help enhance root efficiency and encourage nutrient uptake. We also include earthworm castings, a gentle source of nutrition for seedlings and small plants. Use Light Warrior® Seed Starter for seed germination, cuttings and new plant starts for both indoor and outdoor cultivation. • Designed for Seed Germination, Cuttings and Plant Starts • Formulated for Customized Feeding Schedules • Contains Custom • 1 cubic foot

✓ **HAPPY FROG SOIL CONDITIONER**

Don't Treat Your Soil Like Dirt!® Bring home a bale of our Happy Frog® Soil Conditioner, and your plants will thank you. In every bag of Happy Frog® Soil Conditioner you'll find finely-screened aged forest products, earthworm castings, and bat guano, not to mention soil microbes to help increase root efficiency and encourage nutrient uptake. We also add humic acid, which may increase the uptake of important micronutrients. For additional nutrition, use Happy Frog® Jump Start Fertilizer for all new plantings, or the Happy Frog® fertilizer that's right for your garden. • Amends Existing Garden Beds • Improves Aeration and Texture of Compacted Soils • Contains Humic Acid and Custom Blend of Soil Microbes • 1.5 cuft loose fill / 3 cuft bale / 27 cuft tote / 55 cuft tote

✓ **STRAWBERRY FIELDS POTTING SOIL**

Strawberry Fields® Fruiting & Flowering Potting Soil is designed to pump up your blooms, fruits and berries with no hang-ups. Brought to you directly from the Flower Children of the Sixties and Seventies - the Old School generation. Love, Peace and Happiness is in our hearts and that is exactly what we pour into every bag of Strawberry Fields®. Designed to pump up your blooms, fruits and berries with no hang-ups. Out-A-Sight! • Supports Fruiting and Flowering • For Berries, Melons, Flowers and Bulbs • Contains Custom Blend of Soil Microbes • 1.5 cubic foot / 27 cubic foot tote / 55 cubic foot tote

✓ **BIG BOY PANTS PLAIN JANE**

Big Boy Pants® Plain Jane® Coconut Coir is the basic foundation for your growing program. It's a Plain Jane® mix that contains a proprietary blend of coconut fiber and pith for aeration and water retention. If you've been looking for a soilless media that you can use with a customized feeding program, look no further. • Triple Washed to Reduce Salt Content • A Blend of Coconut Fiber and Pith for Aeration and Water Retention • Ideal For Hydroponic Growing Systems • 3 cubic foot bale

✓ **FOX FARM KO KO BOP**

KO KO BOP® is a blend of renewable coconut coir and aged forest products with perlite for aeration. This grow bag is ready for planting. Plant directly into this bag for all growing applications. KO KO BOP® and DROP – It Doesn't Get Any Easier! • Easy To Use Grow Bag Is Ready For Planting • Nutrient rich for all growing needs. • Blend of renewable coconut coir and aged forest products with perlite for aeration • 3 cubic foot grow bag

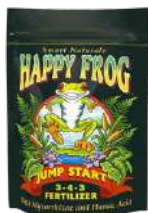

✓ **FOX FARM ORIGINAL PLANTING MIX**

Our Original Planting Mix is a blend of soil amendments such as aged forest products, sphagnum peat moss and earthworm castings. Use our Original Planting Mix for all your gardening projects. The aged forest products and peat moss in FoxFarm Original Planting Mix may make it more effective at holding moisture around the roots of plants. In turn, this may help you obtain glorious gardening results and save water at the same time. Bring Your Plants to Life!® • Ready-to-Use For Gardens and Raised Beds • Contains Earthworm Castings and Bat Guano • Amends Native Soil • 1 cubic foot

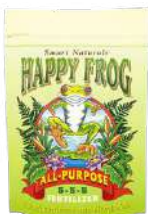

DRY FERTILIZERS

✓ HAPPY FROG® JUMP START®

Happy Frog® Jump Start Fertilizer is formulated for use on transplanted seedlings and re-potted container plants. This proprietary mix of fertilizers supplies phosphorus, a nutrient necessary for the early stages of plant growth. It also contains calcium, which may help build stronger cell walls and boost the plant's ability to resist disease. Mycorrhizal fungi are included to help increase root efficiency, which may enhance nutrient uptake and water absorption. OMRI Listed® and Registered CDFA Organic Input Material. Happy Frog® - Crafted For Organic Gardening™ • Ideal for use on transplanted seedlings • Supplies Phosphorus for early stages of plant growth • Helps support root development • 4 lb.

✓ HAPPY FROG® ALL-PURPOSE®

Happy Frog® All-Purpose is a ready-to-use blend of fertilizers and soil microbes that delivers nutrition where your plants need it most. Mycorrhizal fungi are included to help increase root efficiency, which may enhance nutrient uptake and water absorption. Recommended for vegetable gardens, annual and perennial flower gardens, ornamental plantings, and all types of container gardening. OMRI Listed® and Registered CDFA Organic Input Material. Happy Frog® - Crafted For Organic Gardening™ • For flowers, vegetables and ornamental plants • Contains soil microbes • Provides gentle slow-release feedings • 4 lb. / 50 lb.

✓ HAPPY FROG® TOMATO & VEGETABLE

Happy Frog® Tomato & Vegetable Fertilizer is specifically formulated for use on all veggies, tomato varieties, soft fruits and berries. The nitrogen, phosphorus and potassium in this blend supply the nutrition necessary to support the vegetative and flowering stages of plant growth. This fertilizer also contains calcium which helps prevent blossom end rot and builds stronger cell walls, boosting the plants ability to resist disease. Mycorrhizal fungi are included to help increase root efficiency, which may enhance nutrient uptake and water absorption. OMRI Listed® and Registered CDFA Organic Input Material. Happy Frog® - Crafted For Organic Gardening™ • Designed for vigorous feeders • Supports the production of abundant fruit development • Contains calcium, which helps prevent blossom end rot • 4 lb. / 50 lb.

✓ HAPPY FROG® FRUIT & FLOWER

Happy Frog® Fruit & Flower Fertilizer is specifically designed to supply phosphorus for fruit and flower development. Also contains nitrogen essential to support growth through the end of the growing season. Mycorrhizal fungi are included to help increase root efficiency, which may enhance nutrient uptake and water absorption. Happy Frog® - Crafted For Organic Gardening™ • Supports abundant fruiting and flowering • Supplies Nitrogen for sustained growth • Helps support vigorous root systems • 4 lb. / 50 lb.

✓ HAPPY FROG® CITRUS & AVOCADO

Happy Frog® Citrus & Avocado Fertilizer is specially formulated with your citrus and avocado trees in mind. Nothing is better than the juicy, flavorful kick you experience when you taste a fresh lemon or lime, and no one can resist the smooth texture of a perfectly ripened avocado. This formula contains nitrogen for robust vegetative growth, as well as calcium and sulfur to address the needs of these beautiful and bountiful trees. Mycorrhizal fungi are included to help increase root efficiency, which may enhance nutrient uptake and water absorption. Enjoy a burst of delicious goodness when you use Happy Frog® Citrus & Avocado Fertilizer. OMRI Listed® and Registered CDFA Organic Input Material. Happy Frog® - Crafted For Organic Gardening™ • Specially formulated for citrus and avocado trees • Provides slow-release Nitrogen for vegetative growth • Contains custom blend of soil microbes • 4 lb.

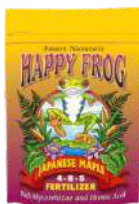

✓ HAPPY FROG® ACID LOVING

Happy Frog® Acid Loving Plants Fertilizer is specifically formulated for use on azaleas, rhododendrons, camellias, hydrangeas, evergreens, blueberries, raspberries, strawberries, and all other acid loving plants. This blend of fertilizers and microorganisms delivers nutrition where your plants need it most. Mycorrhizal fungi are included to help increase root efficiency, which may enhance nutrient uptake and water absorption. OMRI Listed® and Registered CDFA Organic Input Material. Happy Frog® - Crafted For Organic Gardening™ • Designed for low pH lovers • Provides gentle slow-release feedings • Contains soil microbes • 4 lb.

✗ Items denoted by this icon are non-stock items and will need to be ordered.

Ⓢ Items denoted by this icon are seasonal-stock items and will be in stock during the items seasonal use.

S **HAPPY FROG® JAPANESE MAPLE**

Happy Frog® Japanese Maple Fertilizer is specifically formulated for use on Japanese maples, lilies, evergreens, hydrangeas, junipers, dogwoods, flowering ornamentals, and other low pH feeders. This unique blend of fertilizers and microorganisms delivers nutrition where your plants need it most. Contains phosphorus and potassium to support the needs of these beautiful trees. Mycorrhizal fungi are included to help increase root efficiency, which may enhance nutrient uptake and water absorption. OMRI Listed® and Registered CDFA Organic Input Material. Happy Frog® - Crafted For Organic Gardening™ • For low pH feeders and evergreens • Helps encourage dense vegetative growth • Contains soil microbes • Helps support strong branch development • 4 lb.

S **HAPPY FROG® STEAMED BONE MEAL**

Bone meal is a wonderful food for bulbs and flowers. Our Happy Frog® Steamed Bone Meal is fine-screened and designed to provide phosphorus necessary for all stages of plant growth and flowering. Bone meal also contains calcium, which helps support strong cellular development in plants. Mycorrhizal fungi are included to help increase root efficiency, which may enhance nutrient uptake and water absorption. OMRI Listed® and Registered CDFA Organic Input Material. Happy Frog® - Crafted For Organic Gardening™ • For all stages of plant growth and flowering • Supports strong cell development • Designed to help create abundant blossoms • Wonderful supplement for bulbs • 4 lb.

S **HAPPY FROG® CAVERN CULTURE**

Guanos have been used for centuries as fertilizers for all kinds of plants. Happy Frog® Cavern Culture™ Fertilizer is a proprietary blend of bat and seabird guano, rock phosphate and soil microbes that is specially formulated to deliver the nutrition necessary for flowering and bud development. Mycorrhizal fungi are included to help increase root efficiency, which may enhance nutrient uptake and water absorption. Experience the tried-and-true successes of our ancestors with Cavern Culture™ in your own backyard. OMRI Listed® and Registered CDFA Organic Input Material. Happy Frog® - Crafted For Organic Gardening™ • A blend of bat guano, seabird guano and rock phosphate • Supports multiple bud and flower development • Encourages delicious tasting fruits and veggies • 4 lb. / 50 lb.

TIME-RELEASE FERTILIZERS

S **MARINE CUISINE®**

Marine Cuisine® is an all-purpose fertilizer that blends ocean-based ingredients like crab meal, shrimp meal, seabird guano, and kelp with mineral plant foods to give your garden a quick boost and provide slow release nutrition. Marine Cuisine® is designed for flowers and vegetable gardens, ornamental trees and shrubs, fruit trees, roses, and container plants. Marine Cuisine® is truly Seafood for your Garden!™ • Formulated for heavy feeding vegetables and flowers • Supports vigorous growth and bud development • 4 lb. / 50 lb.

✓ BUSH DOCTOR® CAL-MAG

Nobody likes blossom end rot or tip burn. That's why FoxFarm brings you BUSH DOCTOR® CAL-MAG. Calcium and magnesium help strengthen cell walls and aid in fruit development, helping you avoid the costly and frustrating deficiencies that cause these problems. OMRI Listed® and CDFA Registered for Organic Gardening. • Supplement for calcium and magnesium deficiency • Calcium and magnesium help prevent blossom end rot and tip burn • Pint / Quart / Gallon

✓ BUSH DOCTOR® WHOLLY MACKEREL®

Bush Doctor Wholly Mackerel® is a liquid plant nutrient derived from fish. Wholly Mackerel® provides immediately available nutrition to support vigorous growth. Use as a root drench application. Registered CDFA Organic Input Material. • For Organic Gardening • Supports Vigorous Growth • Formulated For Immediate Nutrient Uptake • Pint / Quart / Gallon

✓ BUSH DOCTOR® KELP ME KELP YOU®

Kelp grows higher than even some of the Earth's trees. The teeming aquatic life that flourishes in a kelp bed has just as much diversity as that of a rainforest. Kelp Me Kelp You® is a seaweed extract derived from *Ascophyllum nodosum* and designed for use in organic gardening. Our product is a liquid concentrate that can be used for growing fruits, vegetables, gardens or flowers. Suitable for use in gardens, drip-irrigation systems or hydroponic applications. OMRI Listed® and Registered CDFA Organic Input Material. • For Organic Gardening • Seaweed Fertilizer For Gardens, Drip Irrigation, and Hydroponic Systems • Formulated for Immediate Nutrient Uptake • Pint / Quart / Gallon

✓ BIG BLOOM®

Our Big Bloom® Liquid Plant Food is a carefully selected blend of fertilizers formulated to support multiple blooms and seed formations. This liquid plant food supplies nutrients that your plants can access immediately. Big Bloom® contains bat guano and earthworm castings. Bat guano has been used for centuries as a fertilizer for all kinds of plants. Combined with earthworm castings they create a nutrient-rich mix that can help your plants thrive. • Designed for Use During All Stages of Plant Growth • Contains Earthworm Castings and Bat Guano • Formulated for Immediate Nutrient Uptake • Pint / Quart / Gallon / 2.5 Gallon / 5 Gallon / 15 Gallon / 55 Gallon / 250 Gallon

✓ GROW BIG®

Get your garden going with Grow Big®, our liquid concentrate fertilizer for lush vegetative growth. Our special brew is designed to enhance plant size and structure, allowing for more abundant fruit, flower and bud development. It is formulated with a low pH to maintain stability in storage and keep micronutrients available.

• Supports Lush Vegetative Growth • Formulated For Immediate Nutrient Uptake • For Roses, Tomatoes, Houseplants and Veggies • Pint / Quart / Gallon / 2.5 Gallon / 5 Gallon / 15 Gallon / 55 Gallon / 250 Gallon

✗ GROW BIG® HYDROPONIC

Based on our popular Grow Big® Liquid Plant Food, Grow Big® Hydroponic Liquid Plant Food is a liquid concentrate fertilizer specifically designed for hydroponic use. Grow Big® Hydroponic contains earthworm castings, Norwegian kelp and essential micronutrients to support vigorous vegetative growth. Our special brew is designed to enhance plant size and structure, allowing for more abundant fruit, flower and bud development. • Supports Lush Vegetative Growth • Formulated For Immediate Nutrient Uptake • Liquid Concentrate Fertilizer with Micronutrients • Pint / Quart / Gallon / 2.5 Gallon / 5 Gallon

S LIQUID NUTRIENT TRIO SOIL PACK

Put it all together! Our customers asked for a three-pack of their favorite liquid fertilizers, and here it is: Big Bloom®, Grow Big®, and Tiger Bloom®, together at last. Designed to work together to support vigorous growth, multiple bud development and abundant fruit. Bring your plants to life! • 3 Quart bottles

✓ TIGER BLOOM®

FoxFarm Tiger Bloom® is a phosphorus fertilizer that contains nitrogen to support vigorous growth. It is formulated with a low pH to maintain stability in storage and keep micronutrients available. Tiger Bloom® can be used for both hydroponic and soil applications. Tiger Bloom® is designed to encourage abundant fruit, flower, and multiple bud development. Use Tiger Bloom® at the first signs of flowering through harvest. • Designed for Buds and Blooms • For Soil and Hydroponic Systems • Formulated for Immediate Nutrient Uptake • Pint / Quart / Gallon / 2.5 Gallon / 5 Gallon / 15 Gallon / 55 Gallon / 250 Gallon

S LIQUID NUTRIENT TRIO HYDROPONIC FORMULA

Designed for hydro gardeners! Here's a convenient three-pack of our top liquid fertilizers for hydroponics: Big Bloom®, Grow Big® Hydroponic, and Tiger Bloom®. Designed to work together to support vigorous growth, multiple bud development and abundant fruit. • 3 Quart bottles

58 SOIL AMENDMENTS

✖ BUSH DOCTOR® FLOWER KISS®

Survival of the fittest is a way of life in the rainforest. Layer upon layer of giants lift their foliage to the sky where sunlight, water and nutrients can be claimed. Bush Doctor® Flowers Kiss® spray-on foliar plant food is designed to be easily absorbed through the plant's leaves, like a soft rain, providing nutrition from the top down. Isn't it great that your plants don't have to fight to survive? • Feed Your Plants From the Top Down • Provides Nutrients through the Leaves • Supplies Micronutrients Needed For Plant Growth • Pint / Quart / Gallon

✖ BUSH DOCTOR® BEMBE®

From the deepest jungles of the African Congo comes the word "Bembé" which means Sweet Offering. This is a delicious treat for your plants that is extraordinarily fragrant and colorful. Bush Doctor® Bembé® is a liquid concentrate that is precisely designed with a complex array of sugars and nutrients. When used as directed, Bembé® can help plants achieve enhanced sweetness qualities, while providing a food source for the microbial populations at the root zone. • Designed to Help Plants Achieve Enhanced Sweetness Qualities • Contains a Complex Array of Sugars and Nutrients • Provides a Food Source for Soil Microbes • Pint / Quart / Gallon

✖ BUSH DOCTOR® BOOMERANG®

Even Mother Nature needs a little help sometimes! Boomerang® lends a hand when the stresses of temperature fluctuations, unintentional neglect, and mineral salt build up knock your beauties down for the count. The soil microbes in Boomerang® help support the root zone. Boomerang® can also be used as a vegetative supplement. It contains solubilized nutrition that is immediately available to plants. Bush Doctor® Boomerang® is the "Comeback Formula" that gives your plants a fighting chance. • Helps Plants Bounce Back and Thrive! • Microbial-Based Formula Helps Support the Root Zone • Formulated For Immediate Nutrient Uptake • Pint / Quart / Gallon

✖ BUSH DOCTOR® KANGAROOT®

Bush Doctor® Kangaroot® is a liquid root drench formulation designed to enhance root efficiency in the rhizosphere. Kangaroot® contains nutrients which are immediately available to plants. Kangaroot® also contains soil microbes to support the root zone and help plants achieve enhanced nutrient uptake. Kangaroot® supplies essential macro and micronutrients that can help plants thrive. For use in both hydroponic and soil applications. For best results, follow the FoxFarm feeding schedule. • Designed to enhance root efficiency in the rhizosphere • Formulated for immediate nutrient uptake • Contains custom blend of soil microbes • Pint / Quart / Gallon

✓ CULTIVATION NATION® VEGGIE

Cultivation Nation® Veggie is step one of our Cultivation Nation® 2-Part Soluble Feeding Program. It contains a blend of immediately available nutrients that are formulated to enhance plant size and structure. Use Cultivation Nation® Veggie during the vegetative growth cycle, and switch to Cultivation Nation® Flower during the middle to late stages of fruiting and flowering through harvest. • 1 lb. / 15 lb. / 50 lb.

✓ CULTIVATION NATION® MICRO

Cultivation Nation® Micro Fertilizer is part two in our 3-part liquid feeding program. Begin by introducing Cultivation Nation® Grow Fertilizer, then supplement with Cultivation Nation® Micro to supply your plants with important micronutrients, and finish strong with Cultivation Nation® Bloom Liquid Fertilizer. • Pint / Quart / Gallon / 2.5 Gallon / 5 Gallon / 15 Gallon / 55 Gallon / 250 Gallon

✓ CULTIVATION NATION® GROW

Cultivation Nation® Grow Fertilizer is part one in our 3-part liquid feeding program. Start with Cultivation Nation® Grow for vegetative growth, then supplement with Cultivation Nation® Micro and finish strong with Cultivation Nation® Bloom. • Pint / Quart / Gallon / 2.5 Gallon / 5 Gallon / 15 Gallon / 55 Gallon / 250 Gallon

✓ CULTIVATION NATION® FLOWER

Cultivation Nation® Flower is step two of our Cultivation Nation® 2-Part Soluble Feeding Program. Use it during the mid to late stages of the flowering cycle through harvest to support fruit and bud development. • 1 lb. / 15 lb. / 50 lb.

✓ CULTIVATION NATION® BLOOM

Cultivation Nation® Bloom Fertilizer is part three in our 3-part liquid feeding program. Begin by introducing Cultivation Nation® Grow and Micro into your feeding program, and then transition to Cultivation Nation® Bloom Fertilizer at the first sign of bud development through harvest. • Pint / Quart / Gallon / 2.5 Gallon / 5 Gallon / 15 Gallon / 55 Gallon / 250 Gallon

✓ CULTIVATION NATION® pH DOWN

It's time to get down! Use Cultivation Nation® pH DOWN to lower the pH of your nutrient solution in both soil and hydroponic environments. • Formulated with citric acid • For use in both soil and hydroponic environments • Pint / Quart

✓ CULTIVATION NATION® pH UP

It's time to get on UP! Use Cultivation Nation® pH UP to raise the pH of your nutrient solution in both soil and hydroponic environments. • Formulated with potassium hydroxide • For use in both soil and hydroponic environments • Pint / Quart

BUSH DOCTOR® MICROBE BREW®

Bush Doctor® Microbe Brew® is a liquid microbial inoculant with a complex blend of ingredients specially formulated to help plants achieve enhanced root efficiency and nutrient uptake. Microbe Brew® encourages rapid microbial colonization at the root zone and can be used in both hydroponic and soil applications. Use Microbe Brew® on your ornamental flowers, evergreens, vegetables and trees. For best results, follow the FoxFarm feeding schedule. • Microbial inoculant supports the root zone • Encourages microbial colonization • Formulated for immediate nutrient uptake. • Pint / Quart / Gallon

BUSH DOCTOR® SLEDGEHAMMER®

Bush Doctor® SledgeHammer® encourages water movement through soil and soil less media. High fertilizer use can compromise plant growth over time due to concentrated mineral salt deposits. SledgeHammer® is a unique rinse formula designed to remove fertilizer buildup which may relieve nutrient lockout. Derived from saponin, an extract of the Yucca schidigera plant. SledgeHammer® is designed for organic gardening and can be used for both hydroponic and soil applications. For best results, follow one of the FoxFarm feeding schedules. • Designed to remove mineral salt buildup • Acts as a wetting agent in grow mediums • Breaks surface tension for improved water movement • Derived from Yucca plant extract. • Pint / Quart / Gallon

DIRTY DOZEN®

FoxFarm Dirty Dozen® is a force to be reckoned with! Twelve of our most popular products will put your garden in the spotlight. Three 6-Ounce Solubles: Open Sesame®, Beastie Bloomz®, & Cha Ching®.

Nine Pint Liquids: Kangaroots®, Microbe Brew®, Bembé®, Sledge Hammer®, Flowers Kiss®, Boomerang®, Big Bloom®, Tiger Bloom®, and Grow Big® Soil

BUSH DOCTOR® FORCE OF NATURE™ FUNGICIDE

Force of Nature® Fungicide helps control Powdery Mildew on many types of plants, including melons, squash, tomatoes, trees, grapes, cucumbers and all sorts of flowers. Force of Nature® Fungicide is applied as a foliar spray and can be a great addition to a well-managed disease program. Force of Nature® Fungicide is nontoxic to humans and animals when used as directed. Makes 25 gallons of solution per quart. Refer to label for caution statement and complete instructions. Use caution when applying to roses and peppers. OMRI Listed® for organic gardening. • Makes 25 gallons of solution per quart • Controls powdery mildew • Non-toxic to humans and animals when used as directed • Use indoors and outdoors • Quart

BUSH DOCTOR® FORCE OF NATURE™ INSECT REPELLANT

Force of Nature® Insect Repellent is made from pure garlic juice and can be applied to all plants, trees and shrubs. It has no plant toxicity and is non-toxic to humans and animals when used as directed. Force of Nature® Insect Repellent can be used as a repellent for soft-bodied flying insects such as aphids, leaf hoppers, white flies and thrips. Makes 25 gallons of solution per quart. Refer to label for caution statement and complete instructions. OMRI Listed® for organic gardening. • Makes 25 gallons of solution per quart • Repels soft-bodied flying insects • Non-toxic to humans and animals when used as directed • Use indoors and outdoors • Quart

BUSH DOCTOR® FORCE OF NATURE™ INSECTICIDE

FORCE OF NATURE® Insecticide can be used indoors or outdoors as a contact spray for flying and crawling pests commonly found in and around the home. Force of Nature® Insecticide contains Pyrethrum, derived from a Chrysanthemum flower, to give fast and effective kill on contact. Pyrethrum will also flush hiding insects, which then allows you to spray them for immediate contact kill. Refer to label for caution statement and complete instructions. • Kills on contact • Ready to use • No mixing or measuring • Use Indoors and outdoors • Quart

BUSH DOCTOR® FORCE OF NATURE™ MITICIDE

FORCE OF NATURE® Miticide helps control various mites and insects on many types of plants, including melons, squash, tomatoes, trees, grapes, cucumbers and all sorts of flowers. Force of Nature® Miticide is applied as a foliar spray and can be a great addition to a well-managed IPM program. Force of Nature® Miticide is non-toxic to humans and animals when used as directed. Makes 25 gallons of solution per quart. Refer to label for caution statement and complete instructions. OMRI Listed® for organic gardening. • Makes 25 gallons of solution per quart • Controls mites, thrips and aphids • Non-toxic to humans and animals when used as directed • Use indoors and outdoors • Quart

DON'T BUG ME®

Don't Bug Me® Home and Garden Insect Spray may be used indoors or outdoors as a contact spray for flying and crawling pests commonly found in and around the home. Don't Bug Me® Home and Garden Insect Spray contains Pyrethrum, derived from a Chrysanthemum flower, to give fast and effective kill on contact. Pyrethrum will also "flush" hiding insects, which then allows you to spray them for immediate contact kill. Refer to label for caution statement and complete instructions. • Ready to use, no mixing or measuring • Derived from chrysanthemum flowers • kills harmful garden pests on contact • Can be applied up to day of harvest • 24 oz.

60 SOIL AMENDMENTS

S BUSH DOCTOR® LIQUID IRON

Give your plants a shot at greatness with Bush Doctor® Liquid Iron! Iron is essential to plant growth, playing a vital role in green up, energy production, and nitrogen fixation. Bush Doctor® Liquid Iron is like a nutritional supplement for your plants, giving them a source of iron when they need it most. You wouldn't train for a marathon without taking a nutritional supplement, would you? For use on trees, shrubs, citrus, and roses. OMRI Listed® and registered CDFA Organic Input Material. Prepare Your Plants To Perform! • Supplement for Iron deficiency • Iron supports energy production and green up • Use on trees, shrubs, citrus and roses

• Pint / Quart / Gallon

S BUSH DOCTOR® MANGANESE

You probably think you've covered all your bases: your NPK is on point, your pH is dialed in, and there isn't a pes in sight. Sounds good, but did you know that plants without Manganese can suffer? This important micronutrient plays a valuable role in photosynthesis and helps plants hold their own against environmental stresses. OMRI Listed® and registered CDFA Organic Input Material. Prepare Your Plants To Perform! • Supplement for Manganese deficiency • Manganese helps plants hold their own against environmental stresses • Important micronutrient aids in photosynthesis

• Pint / Quart / Gallon

SOLUBLE FERTILIZERS

✕ OPEN SESAME®

Open Sesame® is a high-phosphorus soluble fertilizer that's designed for use during the early weeks of flowering to support vigorous blooming and bud development. Whether you're growing in hydroponic systems, containers, or gardening in the soil, Open Sesame® will go right to work at the root zone and deliver targeted nutrients when the plants need them the most. • Supports vigorous flowering and bud development • Soluble formula dilutes easily in water • Use alone or with other nutrients

• 6 oz. / 1 lb. / 2 lb. / 15 lb.

✕ BEASTIE BLOOMZ®

Beastie Bloomz® is a high-phosphorus soluble fertilizer specially formulated to support blossom development during mid to late flowering. For use in soilless mixes, soils, hydroponics, and aeroponic systems. • Supports blossom development • Soluble formula dilutes easily in water • Customized micronutrient package • 6 oz. / 1 lb. / 2 lb. / 15 lb

✕ CHA CHING®

Every stage of the growing cycle demands optimal nutrition. Cha Ching® is a highphosphorus fertilizer that is designed to help support late stage fruiting processes. Even better, we've included the micronutrient package that FoxFarm is known for. • Designed for late stage fruiting • Formulated for immediate nutrient uptake. • Soluble formula dilutes easily in water. • 6 oz. / 1 lb. / 2 lb. / 15 lb.

✕ SOLUBLE TRIO PACK

We designed our soluble fertilizers to work together as part of a sequential feeding schedule for hydroponic and conventional growers. Using our soluble plant foods on your plants is like putting your plants on an Olympic training diet. Check out Open Sesame®, Beastie Bloomz® and Cha Ching®, and see the results for yourself! For best results, start indoor plants in our Light Warrior® Agro-Ponic® Grow Medium, and use our Ocean Forest® Potting Soil for container plants. • Open Sesame® supports vigorous flowering and bud development • Beastie Bloomz® supports blossom development • Cha Ching® supports late stage fruiting • (3) 1 lb. canisters

Our water-soluble and controlled-release fertilizers for the greenhouse and nursery professional provide the highest level of balanced nutrition available. Free of excess salts and other chemical impurities which can damage roots and foliage, the balanced nutrition and pure composition ensure optimum growth rates and predictable blooming response for your greenhouse crops. Our water-soluble fertilizer contains chelated micro-nutrients for the most effective delivery of nutrients to your plants. Our fertilizer solutions are not only a complete plant food, but they are compatible with most insecticides, herbicides or fungicides on the market.

Masterblend

Our flagship product & still an industry favorite! Masterblend is 100% water soluble for worry-free use. It is manufactured to provide complete solubility in all types of water with no fall-out. This means no matter what type of sprayer or injector you're using, Masterblend will remain in solution ready to do the job.

RELIABLE PERFORMANCE

- Optimum growth rates
- Predictable blooming response
- Maximum resistance to disease
- Chelated micronutrients
- Promotion of healthy plants

✓ 9-45-15 PLANT STARTER WATER SOLUBLE FERTILIZER

As the name indicates, MASTERBLEND® 9-45-15 is designed primarily as a plant starter for fertilizing transplants, newly set cuttings, young seedlings, etc. Young plants require high Phosphorus for proper growth; MASTERBLEND® 9-45-15's low Nitrogen and high Phosphorus fit the needs of young plants very well. This formula can also be used whenever soils indicate need for elevated Phosphate levels.

✓ 10-30-20 BLOSSOM BOOSTER WATER SOLUBLE FERTILIZER

MASTERBLEND® 10-30-20 is specifically designed for use as a blossom booster for Orchids, but it "should not be limited to just one plant species, It will work very well on all types of flowering material, especially when the grower requires improved bud set, bud count and better color and size of flowers. Use MASTERBLEND® 10-30-20 throughout the flowering stage; switch back to the regular analysis when flowering is finished. Fertilizer amounts need not be

✓ 13-2-13 CAL-MAG FORMULA WATER SOLUBLE FERTILIZER

High Nitrate formula-especially recommended for plugs with its high Calcium and Magnesium content. Specifically formulated for all crops that indicate a sensitivity to the Ammoniacal form of Nitrogen. Magnesium source is Magnesium Nitrate, shown to be a most efficient source of quickly available Magnesium.

✓ Items denoted by this icon are items we keep in stock.

✗ Items denoted by this icon are non-stock items and will need to be ordered.

Ⓢ Items denoted by this icon are seasonal-stock items and will be in stock during the items seasonal use.

62 SOIL AMENDMENTS

✓ 14-4-14 CAL-MAG SPECIAL WATER SOLUBLE FERTILIZER

Plant nutrients derived from: Potassium Nitrate, Calcium Nitrate, Magnesium, Nitrate, Ammonium Phosphate, Ammonium Nitrate, Boric Acid, Copper EDTA, Iron EDTA, Manganese EDTA, Sodium Molybdate, Zinc EDTA.

✓ 15-3-20 PANSY FORMULA WATER SOLUBLE FERTILIZER

Plant nutrients derived from: Potassium Nitrate, Calcium Nitrate, Magnesium, Nitrate, Ammonium Phosphate, Ammonium Nitrate, Boric Acid, Copper EDTA, Iron EDTA, Manganese EDTA, Sodium Molybdate, Zinc EDTA.

✓ 20-10-20 SOIL-LESS MIX WATER SOLUBLE FERTILIZER

MASTERBLEND® 20-10-20 is specifically designed for application to soil-less growing media. This new formula offers high Nitrate Nitrogen for good N uptake under all growing conditions. MASTERBLEND® 20-10-20 also contains significantly greater levels of trace elements (in fully chelated form) than the all purpose 20-20-20. This soil-less mix formula, with is 20 units of N, allows growers to actually use less fertilizer when compared to products containing only 15 units of Nitrogen (a 25% savings in total fertilizer usage). 20-10-20 is safe for all greenhouse varieties and can be used with confidence for all soil-less growing.

✓ 20-20-20 GENERAL PURPOSE WATER SOLUBLE FERTILIZER

MASTERBLEND® 20-20-20 is designed for application with any sprayer, injector or proportioner. It is an all-purpose formula, safe for all growing plants. No sodium, sulfate or chloride is used in formulation. The result is a clear, balanced solution which will not ""fall out"" to clog equipment or soils. MASTERBLEND® is completely available to plants.

MICRONUTRIENTS

We use only the CHELATED forms of Copper, Iron, Manganese and Zinc; we use technical grades (or better) of Borax and/or Boric Acid as our Boron source, Ammonium or Sodium Molybdate as our Molybdenum source and Magnesium Sulfate as our Magnesium source.

Intelligent use of micronutrients implies and requires caution. Optimum levels of micronutrients in a constant feed program are often below the minimums required by many state fertilizer laws. These levels are, however, based on years of trial and testing; and consistently high quality crops have been produced as a result.

Lets talk about your micronutrient program. We can custom blend according to your local requirements should you wish. Contact you Masterblend® professional representative for more information.

JACK'S PROFESSIONAL WATER SOLUBLE FERTILIZERS

✓ 20-10-20 PL

The most popular formulation, 20-10-20 Peat-Lite has approximately twice the level of micronutrients as the GP formulation. The additional level of micronutrients provides necessary elements absent from most commercially made peat-lite potting media.

✓ 20-20-20 GP

The general-purpose industry standard, 20-20-20 is great for maintaining plants in garden center and growing facilities. It provides fast green-up and great foliar expansion due to the high percentage of ammonium and urea nitrogen plus balanced phosphorus and potassium for excellent root and shoot growth.

✓ 15-5-15 Ca-Mg

This is a truly comprehensive fertilizer with all the macro and micronutrients in one tank. It contains 4% calcium and 2% magnesium, making it an ideal choice for waters low in those nutrients. It is formulated with over 80% nitrate nitrogen and a peatlite level of micronutrients. It can be tank mixed with 21-5-20 and other Jack's LX formulas.

✓ 21-5-20 All Purpose

This is the ideal fertilizer for moderate to high alkalinity waters. It is formulated with over 60% nitrate nitrogen and a peat-lite level of micronutrients. It can be tank mixed with 15-5-15 and other Jack's LX formulas.

✓ 9-45-15 Plant Starter

Initial use of 9-45-15 for transplanting into cells or beds supplies the high-phosphorus ratio designed to boost root growth prior to shoots. Can also be used to correct or supplement low phosphorus situations especially in outdoor production.

✓ 10-30-20 Blossom Booster

Use this high phosphorus formulation during periods of bud set to increase number and size of blossoms. Resume use of traditional production fertilizers for the remainder of growing cycle to avoid internod stretch. Great for vegetable production.

✓ 15-0-15 Dark Weather

The traditional high-calcium fertilizer (11%) for growers who need to supplement their fertilizer programs with calcium. Alternate with 20-10-20 Peat-lite or Use as a "finisher" for flowering plants like poinsettias. This formula has the traditional micronutrient levels need for general production.

✓ 15-16-17 Peat-Lite

Similar to 20-20-20 but with over 60% nitrate nitrogen, boosted micronutrient levels and much less acidic reaction in the root media! The balanced N-P-K ratio is excellent for producing fast-growing plants or for maintaining plants in a sales environment.

✓ 15-20-25 Poinsettia Finisher

An excellent choice for finishing poinsettias grown in soil containing mixes. It is formulated with additional molybdenum and traditional levels of micronutrients. The 3:4:5 ratio and high nitrate nitrogen content has been shown to produce strong stems and bright bracts.

✓ 25-5-15 High Performance (Reduce your fertilizer usage by 20%)

Jack's Professional High Performance Fertilizer 25-5-15, higher nitrogen percentage will reduce fertilizer use by formulation design—you will use less powder to deliver the same strength nutrients to the plants.

LAWN PRO FERTILIZERS

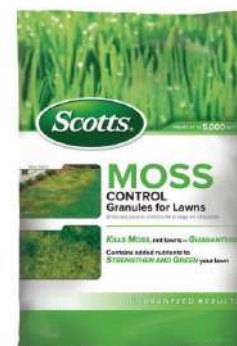

✓ LAWN PRO® CRABGRASS PREVENTER

- Apply in early spring (February-April).
- Prevents crabgrass & other grassy weeds.
- Provides early spring feeding.

LAWN PRO® MOSS GRANULES

- ✓ Kills moss completely.
- Apply spring, fall, winter or any time moss is actively growing.
- Guaranteed results!
- Contains no fertilizer.

PRODUCT#	COVERAGE
31005A	5.0 sq.ft.

FLORIKAN TOTAL

100% polymer coated fertilizer containing a total package of N-P-K & micronutrients. This product is safe for use on annuals, perennials, shrubs & trees.

		LENGTH	LBS
FLK 17-5-11-180	17-5-11 Florikan Total	6 - 7 M	50 lb.
FLORIKAN PLUS			
100% Polymer Coated Fertilizer containing N-P-K only.			
FLK 14-14-14-090	14-14-14 Florikan Total	3 - 4 M	50 lb.
FLK 18-6-12-270	18-6-12 Florikan Plus	9 - 10 M	50 lb.
FLK 12-6-6-060	12-6-6 Florikan Topdress	2-3 M	50 lb.
FLK MAX 50	Homogenous Micro Nutrient Mix		50 lb.

FLORIKAN BLEND

Fertilizer's containing N-P-K & micronutrients blended together for a complete nutrient package. Contains a high level of micronutrients to provide quick green up & polymer coated NPK for safety. Blended together they make an excellent full season fertilizer.

Florikan fertilizer states the longevity at 80°F. Example 16-5-11 is 6M@80°F, and 8M@60°F

OSMOCOTE CONTROLLED RELEASE FERTILIZERS

✓ 14-14-14 (3-4 Months) • 50# Bag

A controlled release fertilizer with small granules of a water-soluble nutrient coated with a thin film of plastic resin. Through osmosis, the soluble fertilizer moves through the thin resin coating & delivers to the soil a controlled amount of nutrients over an extended period of time. OSMOCOTE can be used as a single supply of nutrients, or combined with a regular feeding program. When second & third crops have been grown in soil in which Osmocote has been applied, the recommended rates should be reduced about 25% to 50% to compensate for carry-over nutrients.

SEED & SOD STARTER

18-24-12 • 50# Bag

Use when seeding, overseeding, sodding or spreading to give new grass growth a great start. Promotes a safe timed-release feeding. For use on all grass types.

68 SOIL AMENDMENTS

✓ VERMICULITE & PERLITE

An extremely efficient & very popular soil conditioner. Loosens soil, provides aeration, retains water for healthier roots. Can be used to start seeds, propagate cuttings & store bulbs. Can be blended with peat moss & perlite when custom soilless mix is desired.

VERMICULITE FINE GRADE #3 C 4 cu.ft. / Bag
VERMICULITE COARSE GRADE #A3 4 cu.ft. / Bag

✓ PERLITE 4 cu.ft. / Bag

A lightweight soil conditioner made of volcanic matter. Loosens soil, reduces caking, improves drainage & aeration. Can be blended with peat moss & vermiculite when custom soilless potting mix is desired.

SOIL MOIST has been developed to assist the grower, nurseryman, interior/exterior gardener & landscaper in growing & maintaining vigorous plants. It is an effective water management aid designed to reduce the amount of plant waterings. Soil Moist is an environmentally safe synthetic superabsorber copolymer.

Sizes: 3oz., 8oz., 1#, 3# or 8#

- Reduces plant waterings
- Encourages deep root penetration
- Minimizes transplant shock
- Maintains vigorous plants
- Reduces soil compaction

✓ SOF'N SOIL GYPSUM 40#

By breaking up compacted clay, this product:

- Conditions the soil to aid germination of seed
- Allows fertilizers to work better for rapid development of root growth that helps plants & lawns survive the rigors of summer's heat & winter freezes
- Prolongs loaming
- Prevents root rot
- Eliminates topple in many plants
- Prevents blossom end rot in tomatoes.

✓ 40# PELLETIZED LIME

- Corrects Soil pH
- Boosts Nutrients
- Virtually Dust Free

✓ 50# HYDRATED LIME

- Corrects Soil pH
- Neutralize Acidic Soil
- Reduce Outdoor Odors

✓ 50# DOLOMITIC LIME

- Conditions Soil
- Makes Fertilizer More Effective
- Will Not Burn • Corrects Soil PH

✓ THE ANDERSONS - Professional Turf Products

21-3-8 FERTILIZER WITH BARRICADE

- Combination fertilizer & Barricade® preemergent herbicide.
- Provides preemergent control of : **Annual Grass Weeds:** Crabgrass Annual Foxtail Poa annua Goosegrass Other grass weeds as listed.
Broadleaf Weeds (before they germinate) including: Common Chickweed knotweed Common Purslane Henbit Prostrate Spurge Other broadleaf weeds
- Consistently sized particles reduce segregation potential.
- Nitrogen content includes NS-52 for slow release nitrogen feeding.

SOIL AMENDMENTS & SPECIALTY FERTILIZERS

69

✓ SODIUM MOLYBDATE - GRAM

Molybdenum as MO 54% guaranteed analysis. For constant feed use 1-1 gram packet per 1000 gal. of water. For intermittent feed, use 1-1 gram packet per 100 gal. of water. For foliar feed, use 1-1 gram pkt. Per 10 gal. water. 1 GRAM

✓ POTASSIUM NITRATE 13-0-44

Water soluble form of potassium 6 oz. per 100 gals. Of water for 200 ppm nitrogen. Slight alkaline response due to nitrate of potash.
50lb BAG

✓ ALUMINUM SULPHATE

Used to increase the acidity of soil.
50LB BAG

✓ CALCIUM NITRATE GREENHOUSE GRADE 15.5%

As with any soluble solid, the final solution concentration depends upon temperature. Results of extensive testing indicate that solutions containing up to 65% Viking Calcium Nitrate by weight will not crystallize out at temperatures as low as 0° F. Therefore, solutions of varying concentrations can be easily and safely prepared for use in irrigation/fertilization.
50LB BAG

✓ EPSOM SALT – MAGNESIUM SULPHATE

Trace element source of magnesium and sulphur. Water soluble. Use by itself, do not mix with other water soluble fertilizers.
50lb BAG

✓ AGRIFORM PLANTING TABLETS

20-10-5 Tablets now contain all minor elements landscape plants could ever need, as well as nitrogen, phosphorous, and potassium. Bury tabs near the root system when planting. These are two year planting tablets for convenient root zone feeding of trees, shrubs and ground covers. Contains micronutrients derived from sulfates.
21 GRAM 500/CS

✓ IRONITE

Soil supplement designed to furnish the necessary trace elements essential to healthy plant growth. Turns yellow to green: will not burn. Neutralizes alkaline soils. Environmentally sound; does not pollute. Contains natural soluble iron, plus other necessary trace elements. Use 1-2lbs /100 sq ft. For lawns shrubs, trees, flower beds.
25LB / 40LB

✓ MILORGANITE 6-2-0

A natural organic food. Contains all 15 growth elements needed to produce vigorous, healthy turf. Golf courses use any time of the year because it is so safe. Does not dehydrate tender grass plants. Easy to apply and does not burn.
50LB BAG

MIZE 1-800-321-8161

✓ **BULB-TONE® 3-5-3**

- Perfect for bulbs: Tulips, Daffodils, Crocus & Hyacinths
- Rich in bone meal & other natural organics
- Provides complete balanced feeding
- In 4 & 20 lb. bags

✓ **FLOWER-TONE® 3-4-5**

- Formulated to feed annuals & perennials.
- Low in nitrogen & rich in potash & trace nutrients.
- Promotes & prolongs abundant blooms.
- In 18 & 36 lb. bags.

✓ **HOLLY-TONE® 4-3-4**

- Formulated for acid-loving plants:
- Hollies, Azaleas, Dogwoods, Evergreens & Rhododendrons.
- Used by professionals everywhere.
- In 4, 8, 18, 36 & 50 lb. bags

✓ **GARDEN-TONE® 3-4-4**

- Originally developed for Professional gardeners.
- Provides safe, continuous feeding for all vegetables & deciduous plants.
- In 4, 8, 18 & 36 lb bags.

✓ **PLANT-TONE® 5-3-3**

- An all natural, all purpose premium blend.
- Excellent starter plant food.
- Approved for organic gardening.
- In 4, 8, 18, 36 & 50 lb. bags

✓ **ROSE-TONE® 4-6-2**

- Provides a safe, long lasting reservoir of nutrients.
- Preferred by professional rosarians.
- The safe way to prize winning blooms.
- In 4 & 20 lb bags.

✓ **TOMATO-TONE® 3-4-6**

- Based on the recommendation of six university studies.
- Specially formulated to produce consistently plump, juicy tomatoes.
- Proven to promote healthy plant growth..
- In 4, 8 & 18 lb. bags

✓ **TREE-TONE® 6-3-2**

- For planning & feeding shade, fruit & ornamental trees.
- A complex blend of natural organics & inorganic supplements.
- Helps in the development of the entire tree.
- In 4, 18 & 36 lb bags.

ADD LIFE TO YOUR SOIL

Bio-Tone® Starter products contain hundreds of thousands of living microbes that when combined with our all natural organic plant foods, have been proven to promote fast establishment, deeper roots, and superior soil structure.

✓ BIO-TONE® STARTER 4-3-3

- Bio-active plants food with beneficial bacteria & humates.
- Proven to enhance all aspects of plants growth.
- All natural organic.
- In 25 lb. bags.

✓ BIO-TONE® STARTER PLUS 4-3-3

- Bio-active plants food with beneficial bacteria, humates & mycorrhizae.
- For enhanced root development.
- All natural organic.
- In 25 lb. bags.

EARTH-TONE® ENVIRONMENTALLY FRIENDLY & EFFECTIVE

✓ EARTH-TONE® RTU's & CONCENTRATES

- Full shrink sleeve packaging.
- Sleek, easy to grip bottles.
- Attractive, off shelf displays.
- Competitive price points.
- National distribution.

✓ EARTH-TONE® DISEASE CONTROL

- Patented dual active formula with natural pyrethrins & sulfur.
- Triple action - kills fungus, insects, & mites.
- Proven superior to neem & other naturals.
- For indoor & outdoor plants.
- In 24 oz. RTU spray bottles & 16 oz. concentrates.

✓ EARTH-TONE® INSECT CONTROL

- Fast acting insecticide for use on plants - indoors and outdoors.
- Contains natural pyrethrins & canola oils.
- Kills all stages of insects - adult, larvae, & egg.
- Can be used up to day of harvest.
- In 24 oz. RTU spray bottles & 16 oz. concentrates.

✓ EARTH-TONE® INSECTICIDAL SOAP

- Approved for organic gardening.
- Controls aphids, whiteflies, & mites on contact.
- Made from plant oils - not animal fatty acids.
- Works fast - within hours.
- Available in 24 oz. RTU & 16 oz. concentrates

✓ EARTH-TONE® 4N1 WEED CONTROL

- Non-selective - Kills weeds, grasses, moss, & algae.
- Patented formulation featuring natural & food safe synthetic actives.
- See results in hours.
- Prevents re-growth for up to six weeks.
- In 24 oz. RTU spray bottles & 16 oz. concentrates.

*Always read and follow all label directions and recommended use rates.

✓ **BANNER MAXX FUNGICIDE - GALLON**

USE: (Propiconazole) Systemic fungicide for the control of dollar spot, brown patch, anthracnose, red thread, rust, powdery mildew, stripe smut, summer patch; also controls dichondra rust.

Application: Apply 1-4oz. per 1,000 depending on targeted disease.

✓ **BANROT 40WP - 2lb**

This product is a broad spectrum fungicide for control of damping-off root & stem rot diseases caused by pythium, Phytophthora, Rhizoctonia, Fusarium, & Thielaviopsis in ornamental & nursery crops.

✓ **CAPTAN 80WDG - 6.25lb**

CONTROL/USE; Multipurpose fungicide for ornamentals and fruits. Controls damping-off, powdery mildew, botrytis blossom blight, anthracnose, rust, brown rots, early blight & late blight on various plants.

✓ **CLEARY 3336 FLOWABLE - QT, 2.5 GALLON**

CONTROL; (Thiophanate-methyl). A systemic fungicide for the prevention and control of Dollar Spot, Copper Spot, Brown Patch, Red Thread, Fusarium Rosseum, Leaf Spot and Strips Smut. Also approved for use on roses, flowers, ornamentals & shade trees.

✓ **DACONIL WDG ULTREX - 5lb**

CONTROL; (Chlorothalonil) A new advanced spray-dry formulation broad spectrum fungicide. ULTREX pours smoothly & mixes faster than any chlorothalonil on the market while still providing "cornerstone" DISEASE FIGHTING PROTECTION. DACONIL ULTREX controls 15 major turf diseases and protects against 55 damaging diseases on over 75 species of trees, shrubs, plants & flowers.

✓ **DITHANE T/O (MANCOZEB) - 12lb**

CONTROL; Broad spectrum contact fungicide containing Mancozeb. REMARKS; Dry formulation with dependable results on rust, blight, Fusarium, red thread, algae and other diseases on turf and ornamentals.

✗ **ALLIETTA WDG**

Aliette WDG fungicide is a systemic fungicide that may be applied to a wide range of ornamental flowering and foliage plants as a foliar spray, drench, or as a dip for control of diseases caused by pythium, phytophthora, and downy mildew. It can also be used for suppression of bacterial blight caused by certain phthovars of Xanthomonas campestris. **Pack/Size: 4/5.5 LB**

✗ **PHYTON-35 1 LITER**

A systemic bactericide and fungicide labeled for a wide variety of ornamental plants, nursery crops and trees. Works within the plant to provide integral disease control and often enhances overall plant health and vitality. Effective against internal pathogens as well as on the surface, and does not wash off. No residue on treated material, including blooms. Gentle and young, tender tissue and most plants in full bloom. Compatible with most IPM programs and biocontrols.

✗ **COMPASS 1 LB**

A mesostemic fungicide that will give 14-21 days of control on a variety of pathogens. Compass will offer both contact as well as translaminar control at very low rates. Use Compass in a rotation with Strike or a variety of other fungicides for a season of pathogen clean growing. Labeled for ornamentals grown in the greenhouse, nursery or interiorscapes. REI 12 hours.

Pack/Size: 4/1 LB, 12/8 OZ

✗ **MEDALLION 8 OZ**

First fungicide based on the unique phenylpyrrole chemistry. Medallion's formulation is highlighted by application rates that offer up to 38 times less active ingredient per 100 gallons of solution for ornamentals. Easy on your plants, but hard on Rhizoctonia--not to mention Botrytis and Alternaria. Apply as a foliar spray or soil drench depending on what you are treating. Controls snow molds, brown patch and spring dead spot in turf. **Pack/Size: 10 LB, 4/8-1 OZ**

GROWTH REGULATOR

✓ CYCOCEL - QT, GAL

CONTROL: Produces more compact plants, stronger stems and deeper foliage color.

CROPS: Azaleas, red poinsettias, seed geraniums & hibiscus.

✓ FLORAL GROWTH REGULATOR - QT, GAL

CONTROL: Delays flowering and stimulates lateral branching. Increases branching of stock plants for more cuttings. **CROPS:** Azaleas, Geranium, Chrysanthemum, Fuschia, Impatiens, Lantana, Verbena, vinca. **RATE:** Vary considerably. Consult Label

✗ SUMAGIC GROWTH REGULATOR - GAL

CONTROL: A plant growth regulator in ornamentals. Apply to well watered, vigorously growing plants which are not under environmental stress. **USE:** Azalea, bedding plants, chrysanthemums & poinsettias. Rates vary by plants.

HERBICIDES

✗ BALAN GRANULES - 40lb

CONTROL: (Benefin) A selective control product for crabgrass, goosegrass & annual bluegrass.

✗ BADAGRAN T/O - GAL

CONTROL: Controls yellow nutsedge rhizomes, roots & tubers to kill the entire weed. Also controls tough broadleaf weeds.

✓ GLYSTAR PLUS Non-Selective Agricultural Herbicide

Fully Loaded Surfactant Contains a proven & effective herbicide in a farm strength formulation with easy mixing instructions. Completely kills most weeds, grasses and brush, including the root, eliminating any chance for regrowth. With Pronto weed & grass killer products, controlled weeds don't come back.

✓ GALLERY 75DF - 1lb

CONTROL: (Isoxaben) Selective pre-emergent herbicide for control of certain broadleaf weeds & suppression of annual grasses in turf, landscape ornamentals, ground cover, & nursery stock. Needs 1/2" of rain to activate products.

HERBICIDES

✗ ORNAMEC OVER-THE TOP HERBICIDE - PT, QT, GAL

CONTROL: (Fluazifop) Over the top grass herbicide is labeled for use on 500 plant species in nursery, grower fields, landscape and ornamental beds. Approved for ground covers & trees.

✗ RONSTAR G 2% - 50 lb

CONTROL: (Oxadiazon) A selective pre-emergent herbicide for control of many annual grasses & broadleaf weeds in turf & on container and field grown ornamentals.

✗ SCOTT'S ORNAMENTAL HERBICIDE II (OH2) - 50 lb

This product provides preemergence control of weeds in container and field grown ornamentals.

✓ SNAPSHOT 2.5TG GRANULAR - 50lb

CONTROL: Broad spectrum pre-emergence herbicide providing long term control of many grasses & broadleaf weeds in ornamentals. A combination of Surflan & Gallery.

✓ TREFLAN GRANULES - 40lb

CONTROL: A pre-emergent herbicide that provides long lasting control of annual grasses & broadleaf weeds in nursery stock, trees, shrub, ornamentals, flowers, & ground covers.

✓ Items denoted by this icon are items we keep in stock.

✗ Items denoted by this icon are non-stock items and will need to be ordered.

Ⓢ Items denoted by this icon are seasonal-stock items and will be in stock during the items seasonal use.

76 CHEMICALS - INSECTICIDES

✓ AVID MITCIDE - QT

CONTROL: Spider mites, leaf miners, suppression of aphids, thrips & whiteflies. **CROPS:** Greenhouse Plants, outside nursery ornamentals.

✗ AZATIN O - QT

USE: Can be used indoors & outdoors. Plants may be potted, grown in the soil or soilless mixtures or grown hydroponically. A 3% formulation of Azadirachtin; prevents insects from moving from one life stage to the next. **CONTROL:** Greenhouse whitefly, armyworms, leafminers, western flower thrips & fungus gnats.

✓ CONSERVE T&O INSECT CONTROL - QT

CONTROL: Spinosad, an insecticide for control of Lepidopterous larva (caterpillars of butterflies and moths) including cutworms, sod webworm, army worm, tent caterpillar, gypsy moth, bagworms, webworms, & sawflies. Also labeled for leaf beetles, gall midges, thrips & leaf miners & fire ants. Labeled for greenhouse use.

ENSTAR AQ - QT

CONTROL: All stages of whiteflies. Insect growth regulator for control of whiteflies, aphids, soft and armored scales, mealybugs, & fungus gnats in greenhouses & interiorscapes on ornamental & vegetable crops.

✓ FLORAMITE - QT

CONTROL: All mites, plus all life stages of spider mites. **REMARKS:** Miticide-Bifenazac-quick knockdown with long residual (21 days), safe for beneficials, good for IPM & resistance management programs. Reduced Risk Pesticide.

✓ MARATHON 60WP - 100GRAM 5-20GM

Apply as a drench through a sprayer or injector on the irrigation system. Examples of rates using injector set at ratio 1:100 4-20 gram packet/gal stock soil.

✓ M-PEDE INSECT SOAP - 2.5GAL

CONTROL: Concentrate. Controls adelgids, aphids, earwigs, lacebugs, leafhoppers, mealybugs, plant bugs, psyllids, sawfly larvae, scales spiderbugs, tent caterpillars, thrips, whitefly & wooly aphids on vegetables, fruits, tree nuts, shrubs, trees, foliage plants & flowers.

✓ **MARATHON 1%
GRANULAR SYSTEMIC
- 5lb**

Systemic insecticide with new chemistry. **CONTROLS:** Aphids, Mealybugs, Thrips, & Whiteflies up to 10-12 weeks per application.

✗ **MAVRIK - QT**

CONTROL: A broad spectrum insecticide for indoor & outdoor use. A contact pesticide that controls chinch bugs, ant, mites, armyworms, cutworms, ticks & chiggers.

✓ **MERIT 0.5% GRANULAR
(1/2 ACRE) - 30lb**

CONTROL: (Imidacloprid) New chemistry insecticide available for season long control of grubs & other insects in turf & around ornamentals. Merit is a revolutionary product that provides superior control of pests that may be resistant to other classes of insecticides. **APPLICATION:** Ease of application, low use rates & systemic long residual activity gives great flexibility to users.

✓ **TALSTAR
GREENHOUSE - QT**

CONTROL: This insecticide/miticide offers the same broad spectrum insect & mite control as Talstar 10WP. With its water-based formulation, it leaves virtually no visible residue on bedding plants, roses, tropical plants, foliage, poinsettias and other greenhouse plants. Use on ornamentals without worry about phytotoxicity problems.

✓ **ORTHENE 75W
(ACEPHATE PRO)
- .773lb**

CONTROL: Aphids, thrips, gypsy moths, whitefly, mealybugs. **CROPS:** Roses, carnations, chrysanthemums, ornamental trees & shrubs

✗ **TAME 2.4 EC INSECT/
MITICIDE - QT**

CONTROL: Leafhoppers, mites, whitefly, mealybug, aphids, leafminers. **CROPS:** Commercial greenhouse use only

✓ **TRISTAR - QT SL**

For use on ornamental & flowering plants grown outdoors & in greenhouses, shadehouses & lathhouses. Bedding plants, flowers grown for cuttings, foliage plants, potted flowering plants, ornamental trees, and non-bearing fruit and nut trees (Non-bearing crops are perennial crops that will not produce a harvestable raw agricultural commodity during the season of application). Do not apply to bearing fruit trees and vegetables.

✓ **UTLRA FINE OIL
- 2.5GAL**

CONTROL: Provides good initial control of ovicidal activity while being easy to use without undue concern for applicator exposure or residues. **REMARKS:** Highly refined mineral oil designed for use in many crop and non-crop applications for broad spectrum control of insects and mites. Effective and safe for indoor and outdoor summer use.

78 CHEMICALS - INSECTICIDES

✓ PT 100TR PYRETHRUM TR - 2oz

New total release insecticide aerosol generator. Labeled for use on 33 different vegetable crops & 94 different ornamental & flowering plants in greenhouses, garden centers, nurseries & hobby greenhouses.

✗ PT 1810 ATTAIN - 2oz

CONTROL/USE: For use in greenhouses to kill aphids, armyworms, bagworms, caterpillars, cutworms, fulgids, gall midges, mealybugs, mirids, omnivorous leafrollers, plant bugs, scale, stink lugs, mites, and whiteflies. A broad spectrum insect control and can be used in combination with PT1300 Orthene for tough to control aphids, thrips, and whiteflies.

✓ SPREADER STICKER - GAL

Non-ionic sticker for use with agricultural insecticides, fungicides and herbicides. Recommended for use with Rodeo, Paraquat, Diquat and other herbicides.

NOT RECOMMENDED FOR USE IN GREENHOUSES, some phytotoxic effects possible. Recommended for use with aquatic herbicides.

✓ AKARI 5SC - QT

For control of spider mites on greenhouse ornamental floral and foliage. Not labeled for use in shade house, in lath house, or on outdoor-grown ornamental crops. Provides activity against all developmental stages of mites, with main activity on larvae, nymphs & adults. Gives fast knockdown within one day after treatment. Provides 21-28 days of residual control.

✗ ADEPT IGR - 1 OZ

For the control of fungus gnats, shore flies and foliar feeding pests found on ornamental crops grown in greenhouses. Binds rapidly to organic matter, irrigation will not wash it off, & it has a long residual. Initial knockdown will typically take between 3-5 days. After that period, any new larvae will be controlled for 30-60 days.

✓ SANMITE - QT

Up to 21 days residual activity. Pest control spectrum includes two-spotted mites, european red mites, Southern red mites, broad mite, turnid mite, silverleaf & greenhouse whiteflies and mealybugs. REI 12 hours.

✓ SAFARI INSECTICIDE

Active ingredient: dinotefuran, a neonicotinoid insecticide. Use on indoor & outdoor ornamentals in greenhouse, nursery & landscapes. Targets whitefly, aphid, scale, leafminer, mealybugs & other insects. Pack/Size: 4/3 LB

✓ FLORAMITE MITICIDE - 8 OZ, QT

Provides outstanding control of a variety of mite pests on ornamental plants in green-house, shadehouse, nursery, field, landscape & interiorscape settings. Labeled for use on virtually all types of ornamental plants, including bedding plants, flowering plants, foliage plants, bulb crops, perennial plants & woody plants. Produces quick knockdown, through contact activity & long residual control of more than 21 days. It is effective on a variety of species of mites and all life stages of Tetranychid spider mites. Ideal for use in IPM & resistance management programs.

Pack/Size: 8/1 QT

✗ DEADLINE M-PS SLUG & SNAIL BAIT - 50 LB

4% metaldehyde. Mini-pellets are not easily dissipated by water. Can withstand up to 6" rainfall & still provide snail & slug control. A small pellet that provides six times the coverage of conventional sized snail pellets. Excels at attracting & destroying slugs & snails. Blue mini-pellet provides high visibility during application and useful for determining residual duration of the bait.

✓ DIP 'N GROW - 2oz, PT

Propagators have increased yields up to 30%. Dip 'N Grow is a liquid concentrate that is easily diluted with water to desired strength. It absorbs more easily because it is a liquid and insures that a precise amount of chemical comes in contact with the stem. Cuttings can be bunched and dipped to save time & each gets identical treatment.

✓ HORMODIN 1 - 1lb

Contains .1% active ingredient for roses, poinsettias, carnations, some shrubs, and most home garden & greenhouse plants #1 is formulated for easy to propagate plants such as common shrubs & greenhouse plants. Active ingredient is Indole 3 Butyric Acid – recognized as the foremost root inducing substance. Will treat at least 35,000 average cuttings.

✓ HORMODIN 2 - 1lb

Contains .3% Indole 3 Butyric Acid. #3 is formulated for rooting woody & semiwoody plants & easy to propagate evergreens. Will treat at least 35,000 average cuttings.

✓ HORMODIN 3 - 8oz

Contains .8% active ingredient for more difficult to root varieties, including many evergreen & dormant, leafless cuttings. Will treat at least 17,500 average cuttings.

✗ REDI-HEAT HD PROPAGATION MATS

Turn any open space into a propagation area. Roll out mat on benches, floors or tables. Place flats on mat and cover with plastic to hold heat & humidity. Gentle, even heat means better seed germination. Mats are rugged, waterproof and impervious to soil, chemicals and fertilizers.

Mats: 12"x5' 21"x5'
 12"x10' 21"x10'
 12"x20'

Propagation Mat Controls

Automatic controls hold temperature within one degree of the temperature setting at the sensing bulb.

RDT-4 Digital Thermometer has 4 two-prong receptacles

80 INJECTORS

DOSATRON INJECTOR 14 GPM - D14MZ2

Perfect portable injector.

- 14 GPM flow rate
- Chemical resistant housing
- Easy-to-read ratio selector

- Flow range .05 GPM to 14 GPM
- 1:500 – 1:50
- 4.3 to 85 psi
- 3/4" NPT

Part #: D14MZ2

DOSATRON 20 GPM - D45RE15 - Essential in greenhouses for fertigation or drenching – can be mounted on booms.

- Flow range .4 GPM to 20 GPM
- 1:500 to 1:66
- 7 to 70 psi

- 1" NPT

Part #: D45RE15

DOSATRON 40 GPM - D8RE2 - Versatile injector that operates at low flow and low pressure.

- Flow range 2.2 GPM to 40 GPM
- Chemical resistant polypropylene housing
- Easy-to-adjust injection rates
- Easy-to-read graduated scales

- 1:500 to 1:50
- 2.2 to 116 psi
- 1 1/2" NPT

Part #: D8RE2

DOSATRON 100 GPM - D20S - Manifold for higher flow rates or on a bypass system.

- Flow range 5 GPM – 100 GPM
- 1:500 to 1:50
- 2 to 120 psi
- 2" NPT

- Accurate at variable water flow rates

Part #: D20S

DOSATRON 15-GALLON DOSACART - Great for Garden Centers!

- 15-gallon tank
- Transparent Polyethylene tank construction
- 10" specialty tires
- Drain valve at bottom for easy clean-out
- Crash bar helps protect Dosatron unit from damage

- Dimensions: 45 1/2" high x 16" wide x 20" deep
 - Compatible with 7, 11, 14, and 20 GPM injectors
 - Recommended accessory: Quick hook-up kit
- (Injector and Quick Hook-Up Kit sold separately.)

Part #: HS15-16

Li'l Bud-D 5- GALLON DOSACART - Perfect for spot and specialty treatments

- 5-gallon bucket with lid
- Polyethylene construction
- 10" no flat tires for maximum mobility
- Dimensions: 44.5" high, 19" wide and 22" deep

- Compatible with the 7, 11, and 14 GPM injectors
 - Recommended accessory: Quick hook-up kit
- (Injector and Quick Hook-Up Kit sold separately.)

Part #: HS15-5

DOSATRON QUICK HOOK-UP KIT - Includes everything you need for a quick and easy unit installation onto the Dosatron DosaCart and Li'l Bud-D.

14 GPM and 11 GPM DosaCart Kit - Part #: HSPK58

20 GPM D45 DosaCart Kit - Part #: HSPKD45

Li'l Bud-D Kit – Part #: HSPK58LB

DOSA-KLEAN - Dosa-Klean is a water soluble concentrate that removes rust, mineral deposits, and calcifications. Benefits include:

- Provides lubrication where needed
- Helps to lubricate seals
- No scrubbing needed
- Quick and easy-to-use
- Will not harm the injector

Injector Cleansing Powder that comes in two convenient sizes:

Packet (85 grams)

Part #: CLEANSER-ALL

Economy Pail (3 lb.)

Part #: CLEANSER-3LB-ALL

MINI-MAINTENANCE KITS - The perfect, economical solution for Dosatron users and growers who perform maintenance on a regular schedule. Available for the 11, 14, 20, 40, and 100 GPM injectors.

Kits Include: • Recommended maintenance parts • Dosa-Klean packet • Dosa-Lube packet

Mini-Maintenance Kit for DI16 - 11 GPM

Part #: PJD1075MINI-H

Mini-Maintenance Kit for D8R - 40 GPM

Part #: 8PJ052MINI-H

Mini-Maintenance Kit for D14MZ2 - 14 GPM

Part #: PJD1116MINI-H

Mini-Maintenance Kit for D8RE2 - 40 GPM

Part #: PJD1120VMINI-H

Mini-Maintenance Kit for D45RE15 - 20 GPM

Part #: PJ096MINI-H

Mini-Maintenance Kit for D20S - 100 GPM

Part #: 20PJ030MINI-H

WATER BREAKER

Original, Professional Waterbreaker. Fast, Full-Flow Watering. Gentle flow won't damage plants. Cast aluminum with 3/4" brass threads. Manufactured in USA since 1945.

Item#	Description
✓ 400AL	Water Breaker

REDHEAD WATER BREAKER

Softest full-flow watering nozzle available. Waters plugs or seedlings. Over 1,000 micro-holes create an ultra-soft shower. Will not disturb delicate soil or harm tender plants. High impact cyclolac plastic & stainless steel. Manufactured in USA. (Use a Damm In-Line Hose Filter to eliminate clogging).

Item#	Description
✓ 1000PL	Redhead Water Breaker

WATER BREAKER

Fast, full-flow watering. Gentle flow won't damage plants or wash away soil. Professional's lightweight alternative to our original 400AL model. High impact cyclolac plastic & aluminum. 3/4" hose threads. Quality made in USA.

Item#	Description
✓ 400PL	Water Breaker

LEMONHEAD

Lemonhead Water Breaker 750 holes creates softest flow available
• Reduced flow • Stainless steel disc • Made in the USA Quality made in USA.

Item#	Description
✓ 170PL	Water Breaker

WATER BREAKER

Narrow water pattern for containers & hanging baskets. Adjusts flow to 50% of possible volume. Designed for low or restricted water pressures/volumes. Professional's lightweight alternative to our 170AL model. High impact cyclolac plastic & aluminum. Quality made in USA.

Item#	Description
✓ 170PL	Water Breaker

FOGG-IT NOZZLE

Mist delicate seedlings. Raise humidity around wilting plants. Three mist jets create a conical spray pattern. Available in 4 discharge rates. 3/4" Brass Threads. Made in USA from solid brass.

Item#	Description
✓ 610F	GPM of 1 @ 40 PSI

SYPHONJECT

Fertilizing has never been easier. Plastic siphon mixer. Fertilizes as you water. Average dilution ratio 16:1. Built-in vacuum break. 3/4" male & female hose threads.

Item#	Description
✓ 22624	Siphonject

HANDI-REACH HANDLE

Eliminates stretching and stooping associated with hand watering. 16, 24, 30, 36, and 48 inch. Compatible with any Damm nozzle. 3/4" male and female hose threads. Made in USA from extruded aluminum & brass.

Item#	Size	Description
✓ 116-GC	16"	Handi-Reach Handle
✓ 130-GC	30"	Handi-Reach Handle
✓ 148-GC	48"	Handi-Reach Handle
✓ 124-GC	24"	Handi-Reach Handle
✓ 136-GC	36"	Handi-Reach Handle

BRASS SHUT-OFF VALVE

Best shut-off valve available. Full water flow. Ball opening 1/2." Large ergonomic lever. Fingertip water control. Made in USA from brass, Teflon® Seals & chrome plated ball.

Item#	Description
✓ 300	Brass Shut-Of Valve

HEAVY DUTY PLASTIC SHUT-OFF VALVE

Item#	Description
✓ 45	Plastic Shut-Of Valve

82 IRRIGATION

Realizing that the perfect nozzle is only part of the hand watering experience, Damm is introducing a line of hose designed to equal our watering tools in quality.

Damm ColorStorm-**Professional Rubber Hose** is made from EPDM rubber for a "crackless" hose cover that is **resistant to abrasion and weathering**.

This reinforced hose is hexagonal in shape to reduce kinking. The design of the hose allows a user to easily pull free any kinks that may occur. Our hexagonal Sure- Grip™ cover creates a softer surface for a more comfortable grip.

Each hose has crush-proof, nickel plated, brass fittings for an exact fit that will survive years of use. Damm Professional ColorStorm Hose now says "Don't Tread On Me!" Our bright yellow hose is labeled "CAUTION TRIPPING HAZARD" to further prevent accidents. This feature is great for garden centers, landscapers and contractors... anyone worried about customers tripping. ColorStorm-Professional Rubber Hose is available in 5/8" diameter and in 50', 75' and 100' lengths standard.

Seamless Driptape

5/8" & 7/8" SEAMLESS DRIPPERLINE

- *Seamless Tape: For higher operating pressure and increased flushing capacity. Manufactured with the highest quality tensile strength resins.*
- *Precision Manufactured Molded Emitter: Unsurpassed level of manufacturing quality. Guaranteed accurate flow uniformity (CV > .02).*
- *Plugging Resistant: Turbulent flow path that is coupled with the largest cross-section of any emitter in the industry*

8 mil = 7700' per coil
10 mil = 6700' per coil

TAPE LOC FITTINGS

Agricultural Products Tape Loc fittings are designed tight, fast, Reliable leak proof connections on thin wall tape and tape-like products.

- *Available in 3/8", 5/8", 7/8", and 1 3/8" sizes to fit all major brands.*
- *Easy take-off connections to Flatube, Layflat or PVC.*
- *Time tested durability for superior in-field performance*
- *Re-usable year after year.*
- *Chemical, UV and heat resistant.*
- *Fits most 4 mil. to 25 mil. tapes.*

✓ COMPRESSION FITTINGS

Agricultural Products compression fittings are made with glass-reinforced polypropylene or PVC for durability under the most demanding conditions.

- Easy no-tool installation
- Full range of color-coded sizes
- Chemically resistant
- Time and field-tested
- Full flow – outside diameter of the PE tube “relaxes” against the fitting barb, sealing the connection while allowing unobstructed water flow

4-Way MOD Assembly

8-Way MOD Assembly

Angle Arrow Dripper

Short Angle Arrow Dripper

✓ POT WATERING SYSTEMS

Netafim's Multi-Outlet Drippers (MOD) feature both pressure compensation & a built-in check valve. This combination of features (referred to as PCNL) is the highest level of technology available in drippers today. This technology ensures that every plant will receive exactly the same amount of water & fertilizer regardless of where the plant is located within the system. Each dripper adjusts itself automatically to the system pressure and elevation so that even on rolling or sloped ground.

✓ UV WHITE™ PE TUBING

Fully UV resistant and completely opaque to prevent algae growth. This tubing is NOT coated or layered white, it is solid white for long-term durability. Netafim's UV White™ PE Tubing produces cooler water temperatures & enhances plant growth.

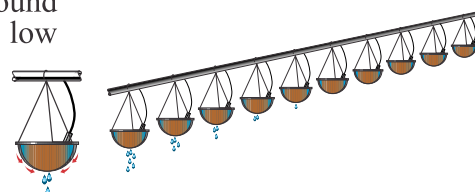

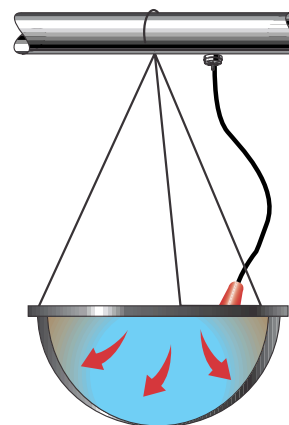

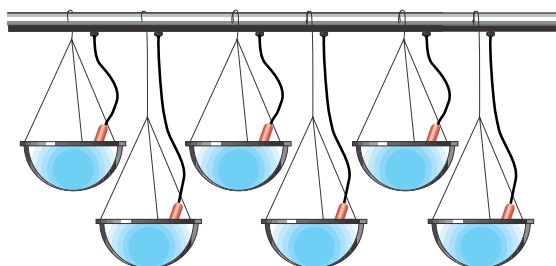

✓ HANGING BASKET SOLUTIONS

Higher Crop Value. Netafim's Drippers for hanging baskets feature both pressure compensation & a built-in check valve. Our drippers may be individually shut-off to prevent unwanted dripping when a basket is removed.

OVERFLOWING BASKET SOAK

Netafim solves this problem! Most first generation drippers soak the baskets to overflowing at the beginning of the line by the time the baskets at the end of the line receive adequate water. One cause is the very high flow of these drippers (often 20 times higher than Netafim drippers). When the soil media dries & shrinks away from the wall of the basket, the high flow from the drippers runs to the edge, into this gap & around the soil, pouring out on the soil & plants below. The relatively low uniformity of these systems compounds the problem.

MULTI-TIER UNIFORMITY

Netafim Hanging Basket Drippers all flow precisely the same, regardless of the length of the tube.

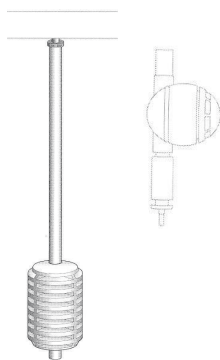

GREENHOUSE SPRINKLER SOLUTIONS

MICRONET FOGGER

The Micronet fogger is the best nozzle for propagation. It creates a zone of saturated humidity that is ideal for rooting. Recommendations available on how to use this product for propagation (humidifying) & cooling.

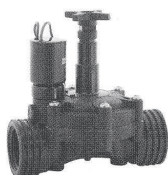

Item#	Description
0306643HL-B	4 Nozzles with High Pressure Check Valve. Flow: 8.1 GPH

FOGGER ASSEMBLY

Used for connection to Polyethylene (PE) Tubing with Netafim sprinklers, misters & foggers.

FILTER, VALVE AND PRESSURE REGULATOR SIZING

ELECTRIC VALVE (AC)

Flow Range (GPM)	Unit Size	Part #
Up to 50	1"	61ET1PB1
Up to 125	1 1/2"	61ET1.5PBI2
Up to 175	2"	61ET2PBI2
Up to 225	3/2"	61ET3/2PBI2

DISC FILTER (120Mesh)

Flow Range (GPM)	Unit Size	Part #
Up to 18	3/4"	25A45-120
Up to 26	1"	25A45-120
Up to 52	1 1/2" Super	25A17-120
Up to 120	2" Dual	25A30-120

PRESSURE REGULATOR (35psi)*

Flow Range (GPM)	Unit Size	Part #
3.5 to 17.6	3/4"	32PRV.75-35V2K
7 TO 35	1 1/2"	32PRV1.5-35V2K
14 TO 70	2" (x4)	32PRV2-435V2K

* A 35 psi regulator will typically provide the desired 30 psi average sprinkler pressure after line and component losses.

S POISON OAK & IVY KILLER RTU

Contains Trimec® three way herbicide for effective weed control to the roots. Systemic. Rainfast upon drying.

S 3in1 INSECT, DISEASE & MITE CONTROL

Works like 3 Garden products in 1

1. Kills and controls insect pests
2. Cures and prevents disease
3. Controls Spider Mites-

Protects up to 2x longer against twice as many pests. Systemic rainproof protection lasts up to 30 days. Works on roses, flowers, trees & shrubs.

ITEM #	SIZE	DESCRIPTION	COVERAGE
701287A	32oz.	Ready to Spray	up to 192 rose bushes
701285B	32oz.	Concentrate	up to 12 gallons of spray
701290B	24oz.	Ready to Use	

S 2in1 SYSTEMIC ROSE & FLOWER CARE

Feeds plants PLUS protects against insects and Spider Mites in one easy step. Easy-to-Use granules with convenient measuring cap. Rainproof insect protection lasts for up to 6 weeks. Fertilizer analysis: 8-12-4 for strong roots and beautiful blooms. Bayer active ingredient: 1.0 % Disulfoton

ITEM #	SIZE	DESCRIPTION	COVERAGE
701100A	5lb.	Granules	up to 32 rose bushes
701210A	10lb.	Granules	up to 64 rose bushes

S 12 MONTH TREE & SHRUB PROTECT & FEED

Ready-to-Use Granules & Liquid Concentrate. No Spraying, mixing or spiking. Just sprinkle granules around plant base & water in. Systemic rainproof protection won't wash off. Kills devastating pests like: Adelgids, Borers, Emerald Ash Borers, Leafminers, Japanese Beetles (adult), & many others. A great way to prevent Japanese Beetle damage. Comes with built-in measuring cup. Bayer active ingredient 1.1% MERIT insecticide PLUS fertilizer. Fertilizer analysis: 2.0-1.0-1.0 slow release formula.

ITEM #	SIZE	DESCRIPTION	COVERAGE
701700B	4lb.	Granules	
701615A	1 gal.	Liquid Concentrate	Mix & Pour

Forget the expense of an arborist or the hassle of spraying. With our 12-month Tree & Shrub solutions, protecting your landscaping investments from devastating insects is as easy as using a watering can.

S DUAL ACTION ROSE & FLOWER INSECT KILLER

- Kills insects on contact, plus protects against listed pests up to 30 days.
- Rainproof in 1 hour.
- Perfect for indoor houseplants
- 24 oz. RTU
- ITEM #502570B

S DISEASE CONTROL FOR ROSES, FLOWERS & SHRUBS

- Systemic formula cure & prevents diseases.
- Controls black spot, crabapple scab, rusts, powdery mildew and more.
- Use to treat roses, flowers, trees, shrubs, houseplants.
- Systemic rainproof lasts up to 2 weeks.
- No white residue left.
- 32 oz. concentrate
- ITEM # 701250B
- (makes up to 42 gallons of spray)

S PREEN GARDEN WEED PREVENTER

Preen Weed Preventer stops weeds from germinating in flower and vegetable gardens, in ground covers and around trees and shrubs. Preen will not kill existing weeds. It will prevent new weeds from sprouting - eliminating the need for difficult and time-consuming hand-weeding. Without weeds, your valuable plants can grow larger and stronger. Your beds will stay neat and weed-free all season long!

S PREEN GARDEN WEED PREVENTER PLUS

Preen Step Saver Weed Control Plus Fertilizer.

S ROUNDUP® The most recognized name in weed and grass killers. Available in extended control, concentrate, super concentrate, and ready to use.

✓ MILKY SPORE GRUB CONTROL

Once established in your lawn, Milky Spores can last up to 10 years. Each grub that dies from Milky Spore decays & releases billions of new spores. Once all of the grubs are destroyed, the spores go into a dormant state until the next generation of grubs return starting the process again. Won't harm people, animals or beneficial insects & may even be used around wells, ponds & streams.

ITEM #	DESCRIPTION	PACK
80010-9	10 oz. Milky Spore Can Treats 2,500 sq.ft.	12
80080-2	20 lb. Milky Spore Bag (Spreader Mix) Treats 7,000 sq.ft.	40 per pallet

✓ SWEENEY'S POISON PELLETS MOLE & GOPHER BAIT

Voted Best Gopher Poison in 2016!

Stop lawn damage fast with the #1 selling mole and gopher bait. Sweeney's Poison-Peanuts act as bait to attract moles and gophers. When ingested, the poison peanuts quickly kill the underground rodents. The cleverly designed canister features a cone tip that allows users to punch holes in active tunnel surfaces for easy application of the pellets.

- Stops lawn damage.
- Easy to use.

✓ TLC FESCUE

T.L.C. Tall Fescue Blend is a special formulation of great-performing, compatible tall fescues fit together to create a beautiful, yet durable & hardy lawn. With its natural dark-green color and fine-leaved texture, deep roots, natural pest & disease resistance, & self-repairing rhizomes, T.L.C. Tall Fescue Blend should provide you with many years of beauty & durability.

5 lb., 10lb., 25 lb., 50 lb.

✓ ANNUAL RYEGRASS

Annual Ryegrass (*Lolium multiflorum*) is a cool-season annual. It forms a medium to coarse textured lawn with moderate wear resistance. The blades are lighter green & coarser in texture than those of perennial ryegrass. Its growth habit is upright & bunching, with no rhizomes or stolons. Use as a soil stabilizer when seeding banks & slopes with other longer lasting grasses. It germinates within ten days. 5 to 10 pounds per 1,000 square feet.

✓ KENTUCKY 31 FESCUE

Kentucky 31 Tall Fescue (*Festuca aruninacea*) is a dense clumping grass that forms a coarse turf able to grow in sun or moderate shade. It is widely used for athletic fields & in lawns. 8 pounds per 1,000 square feet.

✓ PERENNIAL RYEGRASS

Perennial Ryegrass (*Lolium perenne*) is a deep glossy green grass, with a shallow root system. Its blades are finer than those of annual ryegrass. It does not exhibit great drought & heat tolerance. It germinates within ten days. 5 pounds per 1,000 square feet.

✓ RED CREEPING FESCUE

Red Creeping Fescue (*Festuca rubra*) is a fine-textured grass with narrow, dark green blades. It grows well in both shade & drought on banks and slopes. It germinates within 14 days. 4 pounds per 1,000 square feet.

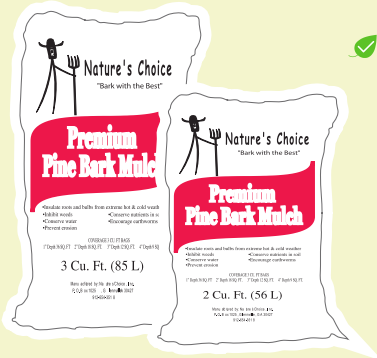

Nature's Choice

"Bark with the Best"

Nature's Choice Provides Premium Mulch, Bark, and Soil Products for every landscaping need.

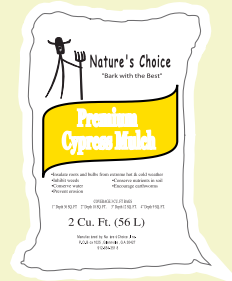

Premium Pine Bark Mulch

¾" & smaller pieces

Light Brown Pine Bark provides optimum drainage & proper aeration for maximum root development. A decorative finish to any landscape.

Available in 2 & 3 Cubic Ft. bags and bulk.

LANDSCAPE TOOLS & FABRIC

DeWITT PRO-5 PROFESSIONAL WEED BARRIER

DeWitt Pro - 5 Weed Barrier is a woven, needle - punch fabric that allows air, water, and nutrients through to the plant's roots for unrestricted and better growth. 99.8% opacity eliminates weed seed germination and subsequent growth below the fabric. Indefinite life span when covered by mulch. Will not rot, mildew, or become brittle in cold weather. Easily cut with scissors. Also, Pro - 5 has colored stripes in 12" spacing for easy planting alignment.

Sizes Available: 3 ft. x 250 ft., 4 ft. x 250 ft., 5 ft. x 250 ft., & 6 ft. x 250 ft.

TYPAR LANDSCAPE FABRIC

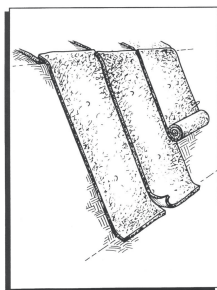

For the best in keeping weeds out of your landscape, and keeping strong, healthy life in your plants and shrubs, you need TYPAR Landscape Fabric. The one that professional landscape architects have trusted for years. It completely blocks weeds, and, unlike plain black plastic, it lets air, water, and sunlight pass through for healthier plants and shrubs. Installs easily, simply roll out and cuts quickly around contours and curves. Performance guaranteed to last up to 5 years.

Commercial Grade Bulk Rolls

36" x 30 ft.
48" x 30 ft.
75" x 30 ft.

Also available in Retail Packaging

3 x 100 ft. 12/Case
3 x 50 ft. 20/Case

Typical Slope Lining

STRAW MATTING

Consists of a 100% certified weed free straw matrix stitched to a single net. Excel SR-1 is available with photodegradable, synthetic netting; rapid photodegradable, synthetic netting or all natural/biodegradable netting.

Sizes Available - Single Mat: 7.5 ft. x 120 ft.

SOD STAPLES

These staples are a must for putting down ground cover (erosion blankets) or Weed barrier. Staples are 6 inches long and sharpened on the points.

Available in bulk boxes of 1000.

✕ LEATHER SCABBARD
